070.1.2 Definitions

A Track Racing meeting consists of all official activities related to racing, starting with the first administration controls and technical verifications until the settlement of all possible protests which are to be dealt with by the Jury or the Referee, if the Jury does not exist.

The actual racing consists of a series of several heats, between 4 or more riders or riders with passengers, referred to hereafter as rider(s), run on an elliptical track with a top surface in granite, shale, brick granules or similar unbound material rolled in on the base ground (Speedway), sand, shale or similar unbound material rolled in on the base ground (Long Track), firm, level turf with minor undulations (Grass Track) and ice with a minimum thickness of 10 cm (Ice Racing).

These meetings may be run between riders competing individually, as a pair, or as a team. Each heat will be limited to one class of motorcycles of the same group.

The FIM World Championships, Prize Events and League Cups recognised by the FIM, referred to hereafter as the FIM Championships may be staged in a series of qualifying meetings leading up to a Final, a Final Series or a Grand Prix Series.

In accordance with prevailing circumstance, the CCP/FIM at its sole discretion may cancel, alter, change or amend ANY aspect of the qualification system and/or diagrams (i.e. the selection of wild card riders, qualified riders, nominated riders, etc.) in respect of any FIM Championship/Cup/Trophy competition at any time.

LEAGUE

A league is a Speedway Championship run by an FMNR affiliated to the FIM and or in partnership with any FMNR/s affiliated to FIM.

LEAGUE MEETING

A league meeting that consists of international riders is, by definition, an International Speedway meeting.

CLUB

Clubs, associations, etc. enter a league tournament directly via registration or from a qualifying system. At the beginning of each season or before the beginning of the tournament, each Club (or association, etc.) will declare to its FMN and/or the FIM the list of Speedway riders composing its Speedway Team.

The riders taking part in an International League meeting can be from any nationality but must hold a FIM Speedway League licence issued by their FMN.

070.1.3 Supplementary Regulations

Supplementary Regulations, referred to hereafter as SR, must be issued by the FMNR in accordance with the FIM Sporting Code, the Track Racing Appendices or Regulations.

For all meetings counting towards the FIM Championships, the SR must be published at least in English and must be approved by the FMNR and the FIM, and subsequently ratified by the International Jury. One copy must be sent to the FIM Administration at least two months before the date of the meeting for approval by the FIM, preferably by electronic mail, confirmed by a copy sent by post.

After approval, and not later than 1 month before the date of the meeting, the FMNR must send copies of the approved SR to all persons concerned or connected with the meeting (International Jury Members, FIM Officials, FMNs, Riders, etc).

The SR must in no case modify the FIM Sporting Code and must be drawn up in conformity with the standard model established by the FIM Track Racing Commission, referred to hereafter as the CCP.

070.1.3.1 Amendments to the Supplementary Regulations

No amendment may be made to the SR after their approval by the FIM Administration or the FMNR. However, in exceptional circumstances, the International Jury or, if the meeting has not started, the FMNR after approval of the FIM, may authorise, an amendment to the SR, which has to be brought to the attention of all persons concerned.

070.1.4 Dates of the meetings

The Qualification systems, all meeting diagrams and the dates on which the FIM Championship and Prize Event meetings are to be held will be prescribed, according to Art. 20.1.1 of the FIM Sporting Code, by the CCP Bureau, subject to the approval of the FIM Board of Directors. Each meeting will be allocated to a FMN. To provide for postponements which may be necessary (due to bad weather conditions for example), the FMNR must declare a re-staging date, which should always be the day following the original date of the meeting, and notify accordingly in the SR.

In the event that the meeting cannot take place on either of the specified dates, the CCP Bureau will agree an appropriate rerun date and venue.

For Speedway Grand Prix WC Series (except for Temporary Tracks):

To provide for postponements which may be necessary by bad weather conditions for example, the FMNR must declare 2 re-staging dates, which should always be the 2 days following the original date of the meeting, and notify them in the SR.

A rider who fails to ride directly and without delay from the pits to the starting line, delays the start in any other manner or who prevents the starting gate from being released properly may be disqualified from the heat at the sole discretion of the Referee.

070.10.8 Replacement of disqualified rider

In individual contests, a rider disqualified under the provisions of Art. 070.10.3, 070.10.6, **070.14.3** or 070.10.7 shall be replaced by a track reserve rider.

In Pairs and Team meetings, a rider disqualified under the provision of the same articles may not be replaced by a reserve rider.

070.10.9 Faulty starting gate

If, because of faulty operation of the starting gate, or for any other reason, the Referee considers a start to have been incorrect, he must immediately stop the heat and order a restart with all riders competing.

If the starting gate should fail to operate entirely, the Referee may start the heats by using the green light (which would be switched off to indicate the start); alternatively a flag may be used.

070.10.10 Starting assistance

After the green light has been switched on (or other starting warning given), or the start machine being released, no outside assistance may be given to any rider (except for the Flat Track).

If, at that time, a rider's machine is not moving under its own power, the rider concerned is disqualified from the heat and must leave the track with his machine.

070.10.11 Leaving the track

A rider whose machine crosses the inner edge of the track with 2 wheels must be disqualified unless, in the opinion of the Referee, the action was taken in the interest of safety for other riders or the rider involved was forced off-course by another rider.

This rule also applies to the crossing (solo: 2 wheels and Sidecar: Sidecar wheel) of the marking of the outer edge of a track.

070.10.12 Noise disqualification

If any part of the motorcycle's exhaust system during racing or practice becomes displaced, detached or damaged or fails in any other way so that all the exhaust gases do not pass through the silencer in a proper manner, the rider concerned will be immediately disqualified from the heat or from the practice run.

070.10.13 Foul or dangerous riding

The Referee shall immediately disqualify any rider team whom he considers indulges in foul, unfair or dangerous riding.

A rider, who, having started in a heat does not make an honest attempt to ride to the best of their ability, as judged by the Referee, shall be guilty of an offence, which may entail disqualification from the heat or a penalty.

There shall be no protest or appeal against a Referee's decision to declare a heat completed or as to his statement of foul, unfair or dangerous riding.

If, in the opinion of the Referee, such conduct produces an advantage to the rider (or team) involved or affects the chances of one or more riders, the Referee may stop the heat and order a re-run.

If any rider is unable to cross the finish line as a result of foul, unfair or dangerous riding on the part of another rider who, in consequence, has been disqualified, the disadvantaged rider shall be deemed to have finished the heat in the placing held immediately before the foul, unfair or dangerous riding and allowing for any advancement in placing following the disqualification of the guilty rider.

A similar system shall apply for a rider/sidecar team who, in the opinion of the Referee, has deliberately laid down his machine or has left the course in the interest of safety.

070.10.14 Outside assistance

A rider must be disqualified from a heat if, after the green light has been switched on (or other starting warning given), or the heat has been properly started, he receives outside assistance except for removing him and/or his machine from the track in the interest of safety.

All contacts by other persons with the rider or his machine, whether intended to give assistance or not, shall be deemed outside assistance.

070.10.15 Disqualifications

A disqualified rider must leave the track without delay and return to the pits as soon as possible after the heat is stopped or finished.

If a rider is disqualified after the finish of a heat, the following rider must be advanced one place.

070.10.16 Time limit

No protest or appeal is permitted against this rule.

A rider must be considered as having retired from a heat if he has not started their last lap before the winner has crossed the finish line.

Speedway and Ice Racing

A rider must also be considered as having retired from a heat if he has not completed the required number of laps within 3 minutes of the start.

Long & Grass Track and Track Racing Sidecar 1000cc

A rider must also be considered as having retired from a heat if they have not completed the required number of laps within 6 minutes of the start.

070.10.17 Finish of a heat

The finish of a heat shall occur in the case of any of the following circumstances.

- a) when the front part of the front wheel of the motorcycle (whilst attached to the machine) passes over the finishing line after completing the appropriate number of laps provided the Competitor is in contact with his motorcycle.
- b) when the referee has awarded the heat as provided for in these regulations.
- c) If the referee has cause to stop a heat after the leading rider has passed the start/finish line to commence the last lap, the referee has the sole discretion to award the heat based upon the positions of the competitors at the time the heat was caused to be stopped. The disqualified rider will be awarded no points and any competitors behind the disqualified riders being advanced one place.

070.10.18 False finish

When a heat has been indicated as finished by display of the black-and-white chequered flag before the required number of laps has been completed by the leading rider, the Referee must declare the heat void and order a rerun except when the race has been awarded as allowed for in article 070.10.17.

If the black-and-white chequered flag has not been shown after the completion of the required number of laps, the flag shall be considered to have been shown.

070.10.19 Rerun heat

If an accident on the track occurs and, in the opinion of the Referee, it is dangerous for the heat to continue, he must stop the heat. Only the Referee is empowered to order a heat to be stopped.

Any rider who, for any reason, is deemed to have been the primary cause of the heat being stopped shall be disqualified from the rerun. A reserve rider is not permitted to take their place.

The Referee may permit any rider who has fallen as a result of having been fouled or because they have deliberately laid down their motorcycle or left the course in the interest of safety to take part in the rerun. In such cases any outside assistance may be ignored.

If a Referee declares the heat over after one or more riders have crossed the finish line, it shall not be re-run. Except in very special circumstances and situations that are beyond the control of the referee and have influenced the heat result. Then a heat can be re-run. Only the referee can take this decision and order a re-run.

Any rider eligible to take part in a rerun may change their motorcycle for the rerun.

A reserve rider is permitted to replace a rider who has injured himself or damaged his motorcycle but who has not been deemed to be the primary cause of the heat being stopped.

When taking part in a rerun, riders must start from their original starting positions and any permitted reserve rider must occupy the position of the rider he is replacing.

When a rider has been disqualified in Pairs or Team heats, his partner may choose his original start position or that of his disqualified partner.

Any rider who has failed to start in, has retired from (which includes not proceeding under power when the heat was stopped) or has been disqualified from a heat which has been ordered to be rerun, shall be ineligible to take part in the rerun, except in circumstances where they have retired after being fouled or have stopped in the interest of safety as described above.

070.10.20 Withdrawal of a rider/Team

Having entered a meeting in the proper manner, any rider or team who fails to present themselves ready to ride at the time stipulated in the SR, or who refuses without reasonable cause, as determined by the Referee, to ride in any heat in which they are due to ride shall be guilty of an offence for which they may be penalised by the International Jury.

No rider may leave a meeting, withdraw from or cease to participate in a meeting without permission. Such permission can be given only by the Referee after consultation with the International Jury.

An FMN or an organiser, official or other person withdrawing, or attempting to withdraw any rider (except in case of injury), Pair or Team from a heat or from a meeting shall be guilty of an offence for which they may be penalised by the International Jury or the CCP Bureau. The penalty can be a fine or an unlimited suspension.

070.11 RESULTS

070.11.1 Calculation of results

Results are normally determined by points related to finishing order. Other methods may be used, but the method must be stated in the SR.

The winner of the heat is the rider who has completed the required number of laps in the shortest time. The riders following are placed according to the order of crossing the finish line.

Only the Referee is entitled to determine the points for each rider in each heat, taking also into consideration the second sentence of Art. 070.10.15 - Disqualifications.

His decision, once announced, is final and may not be the object of protest. Once the Referee has declared a heat over and he has announced the finishing order and respective points, in no case shall that heat be re-run. (see the only exception in Art. 070.10.19)

When two or more riders cross the finish line together, the combined points for the places must be shared equally between the riders concerned.

When World Championship points are awarded according to the finishing order of Final heats, a chronological criteria should be used for awarding points (when applicable).

A rider (for Sidecar, both the rider and passenger) must be in physical contact with his (their) machine when crossing the finishing line.

070.11.2 Riders' scores

In each heat, points are awarded to riders as follows:

Heats with 4 riders:	3 points for 1 st place
	2 points for 2 nd “
	1 point for 3 rd “
	0 point for 4 th “
Heats with 5 riders:	4 points for 1 st place
	3 points for 2 nd “
	2 points for 3 rd “
	1 point for 4 th “
	0 point for 5 th “
Heats with 6 riders:	5 points for 1 st place
	4 points for 2 nd “
	3 points for 3 rd “
	2 points for 4 th “
	1 point for 5 th “
	0 point for 6 th “

For riders who have not completed the required number of laps or, for any other reason have not fulfilled a heat, the following will be noted in the programme:

M = disqualified for 2 or 3 minutes T = disqualified for false start rules

R = retired from the race

d = disqualified

F = fall but not disqualified

N = no start

070.11.3 Ties

In all run-off heats concerning the ties, the starting positions at the gate shall be balloted in presence of the Jury President.

Unless a more specific regulation is applicable to the competition the following will apply:

Individual Speedway and Ice Racing, Speedway Sidecar 1000cc

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

For all other cases, ties will be solved as follows:

- a) Precedence will be given to the riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an “0” for last placing being better than M-R-F-T-d-N).
- b) If the tie still persists and involves only 2 riders, precedence will be given to the best placed rider in the heat where the 2 riders met.
- c) If the tie still persists and involves more than 2 riders, it shall be checked whether there is a possibility to determine a proper precedence (i.e. 3 riders tied on points: A, B, C):

rider A has beaten rider B

rider A has beaten rider C

rider B has beaten rider C

Then the precedence will be: best position for rider A, then rider B and then rider C.

- d) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

When five riders are tied on points, the following run-off schedule must be used:

Heat 1: Riders A, B and C

Heat 2: Riders D and E

Heat 3: 2nd and 3rd from Heat 1 and 2nd from Heat 2

Heat 4: 1st from Heat 1, 1st from Heat 2, 1st and 2nd from heat 3

The riders must be balloted to heats 1 and 2.

In case one or more run-offs cannot be held because of force majeure, then precedence will be given to the riders (tied on points) according to points a), b), c) or d) of this article.

Team Speedway, Team Long Track and Team Ice Racing

For all meetings between Teams, should there be a tie for the first 3 places or the last qualifying place; the tie will be solved by a new heat with one rider from each Team involved in the tie.

If this heat cannot be held because of force majeure, the ties will be solved as follows:

- a) Precedence will be given to the Team (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an “0” for last placing being better than M-R-F-T-d-N) taking into consideration the placings of all riders of each Team.
- b) If solution a) cannot be used, the order shall be determined by ballot.

Starting Area

If only two riders take part in the run-off, the starting area must be divided into two equal parts (outer and inner start position).

If three riders take part in the run-off, the starting area must be divided into three equal parts.

Individual Long Track & Track Racing Youth Gold Trophy 125cc and Long Track Youth World Cup 250cc

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

In case of one or more ties at the end of the Qualifying Heats, the following will apply:

1. Precedence will be given to the riders having the most number of 1st, 2nd, 3rd, 4th, 5th or 6th placings where applicable (an “0” for last placing being better than M-R-F-T-d-N).
2. Ballot.

070.11.4 Interruption of a meeting

If a meeting is interrupted or suspended for any reason whatsoever, where no more specific regulation is applicable to the discipline, the following rules will apply:

Speedway, Long Track, Speedway Sidecar 1000cc and Ice Racing (when run on 1 day):

- a) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant (rider or team) but can continue the same day, then, only the remaining scheduled heats will be staged after the interruption. The final classification will be established taking into consideration the heats staged before and after the interruption.
- b) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant but cannot continue the same day, then, the results of the staged heats will not be taken into consideration. The meeting will be re-staged from the beginning on the date(s) stipulated in the Supplementary Regulations.

- c) When a meeting is interrupted and cannot continue on the same day, and if 50% or more of the scheduled heats per participant are accomplished, then, the meeting must be considered as valid. The position in the final classification will be established by adding the points scored by each participant (rider or Team) in the same number of accomplished heats which means that when a participant (rider or Team) had the opportunity to accomplish one more heat than the other participants, then, that heat must not be taken into consideration (example: an individual meeting is interrupted after heat 14 and cannot continue the same day. The final classification will then be established taking into consideration only heats 1 to 12). This rule applies entirely to each single day of a 2 days Ice Racing meeting.

Ice Racing (when run as “2-day formula”)

- a) When the meeting of the 1st day is interrupted before 50% of the scheduled heats per participant have been accomplished and the remaining heats cannot be staged the same day, then the results are not taken into consideration. Only, the heats of the 2nd day (which must be more than 50% of the scheduled heats per participant will count for the final classification.
- b) When a valid result of the 1st day is accomplished but the 2nd day of racing is interrupted before 50% of the scheduled heats per participant for that day have been accomplished, then the International Jury, taking into consideration the track and weather conditions, will decide if the Organisers can re-stage the 2nd day or consider, for the final classification only the results of the 1st day.

If an FIM Track Racing Championship meeting comprising a qualifying round, semifinal, Race Off or Challenge cannot be staged or restaged or reallocated to an alternative venue or FMN for exceptional circumstances (i.e. Weather) that are acceptable to the CCP Bureau, the CCP Bureau at its sole discretion will nominate a list of appropriate riders to be seeded into the next qualification round, Challenge or Final Series. The riders will be selected from original scheduled line up of the cancelled meeting.

The riders for the official “Nominated Substitute Riders list” will be nominated by the CCP Bureau.

070.11.5 Communication of results

Immediately after the meeting, the FMNR must send by fax (must be typewritten) or e-mail to the FIM the complete results of all participants who competed in their meeting. The original of all documents sent by fax or e-mail must also be signed by the Jury President and the Referee and sent to the FIM by mail.

The results must contain at least the following information:

The Jury President is responsible for **organising** the transmission of the results to the FIM within the hour that follows the approval of the results. This transmission will be made by e-mail to the FIM.

It is compulsory for Organisers to make available an appropriate internet connection for use by the Jury throughout the period of event.

070.11.6 Alteration of results

No alteration to the list of results may be made after the expiry of the time limit, which is set for protests. This does not place any restriction on the right of protest according to the FIM Disciplinary and Arbitration Code.

070.11.7 Prize-Giving Ceremony

In all meetings, after the official programme of heats is terminated, there shall be a Prize-Giving Ceremony.

The riders or teams placed first, second and third shall attend the official Prize-Giving Ceremony.

The presence of the FMNR or FIM Officials at the Prize-Giving Ceremony is not a confirmation of the official results.

070.12 RIDERS' AND TEAMS' EXPENSE REIMBURSEMENT

The expense reimbursement due to the riders or teams shall be in accordance with the agreement between the riders or teams and the organiser or as laid down in the SR.

For the FIM World Championships, the expense reimbursement due to the riders or teams is indicated in the scales of the different Championships under the relevant Appendices.

The place and time of the expense reimbursement to the riders or teams, must be stated in the SR.

070.12.1 Special agreements between FMNs

FMNs are allowed to make special agreements with regard to the riders' and teams' expense reimbursement for a specific meeting.

Organisers are allowed to pay a different expense reimbursement than the relevant FIM scales, subject to agreement between the FMNs and organisers involved.

Organisers are allowed to reimburse airfares or other expenses subject to agreement between FMNs and organisers involved. Travel between continents is subject to agreement between FMNs involved, or to be decided by the FIM.

In special cases, when travelling includes long distance flights, travel arrangements can be settled by the CCP with the FMNs concerned.

070.12.2 Hotel accommodation

The organiser is responsible for the possibility of the riders and officials to book an appropriate number of rooms within the specified deadline. The riders, the FIM and FMN officials etc. are responsible for booking or reserving their own hotel requirements directly or with one of the official hotels specified in the SR, according to the given deadline.

The name, address, telephone and fax number/e-mail address, price of rooms, deadline for booking etc. of a minimum of 2 official hotels must be clearly specified in the SR.

070.12.2.1 Hotel accommodation paid by the organiser

Ice Racing (For Finals only)

For the FIM Individual and the FIM Team Ice Racing World Championship Finals held over two days, **the organisers have the following two options:**

- The hotel accommodation (one double room for 3 nights per rider) must be paid by the organiser.

Or

- The organiser shall give 250 euros to the riders for their own accommodation arrangements when they sign on.

These two options apply without any deductions regarding the overall payment to the riders after the meeting.

070.12.3 Expense reimbursement in case of cancellation or interruption of a meeting

In the FIM World Championships without a FIM Promoter, in the case where a meeting is interrupted, suspended or cancelled for any reason whatsoever so that a proper classification cannot be obtained and the meeting cannot be restaged on the dates given in the SR, the riders and teams are entitled to receive 50% of the amount shown in the scale of expense reimbursement divided by the number of riders (Reserve riders included).

070.12.4 FIM Awards

FIM medals and diplomas are awarded to winners in accordance with the FIM Sporting Code.

070.13 ALCOHOL AND DOPING CONTROLS

Tests may be carried out at any FIM Championships or International Meetings to detect alcohol and prohibited substances, according to the provisions laid down in the FIM Anti-Doping Code.

Where alcohol controls are carried out at FIM Championships or International Meetings, this must be done according to the FIM Medical Code.

Alcohol controls may be carried out by an Alcohol Control Officer before the start of the practice, or at any time during the meeting.

The sanctions for a positive doping and/or alcohol test will be pronounced according to the rules and proceedings laid down in the FIM Anti-Doping Code, **FIM Medical Code** and FIM Disciplinary and Arbitration Code.

070.14 PROTESTS AND PENALTIES

Protests and appeals are subject to the rules and proceedings provided for in the FIM Disciplinary and Arbitration Code.

Any protest must be lodged immediately after the reason for the protest is known. They must be in writing and accompanied by the fee stipulated in the SR and submitted to the Clerk of the Course who in turn will submit them to the Referee.

If the protest requires a measurement of the capacity of an engine which proves to be in order, then the protesting party must pay the actual labour costs for dismantling and reassembling the engine, up to a maximum of 600 Euros.-.

Any irregularity, error or fraudulent action on the part of the rider (and/or the machine concerned) that could influence on the result of a heat or the race would be followed by sanctions (cancellation of the points of the heat or the meeting, disqualification, suspension, etc...).

070.14.1 Time limit

Protests relating to an error, irregularity or fraudulent action on the part of the rider (and/or the machine concerned) that could influence the result of a subsequent heat must be lodged before those concerned leave the pits for that subsequent heat.

If the protest relates to an incident during racing, it must be lodged before the riders leave the pits for their next heat.

Should the reason for the protest occur in the last heat of the meeting, the protest must be lodged within 10 minutes of the finish of that heat.

If a protest has been lodged verbally, it must be confirmed in writing not more than 15 minutes later.

070.14.2 Right of protest and appeal

No protest or appeal may be made against a decision by a Referee, Technical Steward or by a Timekeeper on a statement of fact.

070.14.3 Fines

Every breach of the rule shall be penalised with a fine or penalised with another sanction provided for in the FIM Disciplinary and Arbitration Code. The sanction must be proportional to the offence, and to the circumstances (attenuating or aggravating if applicable) and taking account of any possible advantage gained by the rider. Riders breaking the Rules shall be sanctioned by the International Jury as follows:

071b.1 GENERAL

Competition for national Teams:

4 Teams from different nations (FMNs) will compete in each meeting. The riders from each team must be of the same nationality as the FMN that has nominated them.

The competing FMNs for the qualifying meetings will be decided upon by the CCP Bureau and announced at the General Assembly.

The organiser of a Qualifying Meeting of this Championship is guaranteed to have its national Team competing in this meeting.

The rules of the FIM Sporting Code and Appendices 070 and 079 apply, except where otherwise stated in this Appendix.

071b.1.1 National teams

National teams (e.g. Danish team, British team) are nominated exclusively by their respective FMN. Riders of a national team must be holders of a passport of the country which they represent.

072.6 RESULTS

072.6.1 Ties

After the completion of Heat 20, 21 or 22

When establishing the order between the riders in the list of Intermediate Classification at the conclusion of Heat 20, or following the completion of the Semi-Final Heats 21 and 22, any ties will be solved as follows:

- a) Precedence will be given to the riders (tied on race points) having the most number of 1st, 2nd, 3rd or 4th placings (a “0” for last placing is better than being disqualified for whatever reason).
- b) If the tie still persists and involves only 2 riders, precedence will be given to the better placed rider in the heat or heats where the 2 riders met.
- c) If the tie still persists and involves more than 2 riders, it shall be checked whether there is a possibility to determine a proper precedence (e.g. 3 riders tied on points: A, B, C:
 - Rider A has beaten rider B
 - Rider A has beaten rider C
 - Rider B has beaten rider C

Then the precedence will be: best position for rider A, then rider B and then rider C.

- d) If solutions a), b) and c) cannot resolve the tie, then the order will be determined by ballot.

The Intermediate Final Series Classification

In case of riders tied on final series points in the Intermediate Classification, the rider with highest position in the last staged round will be deemed the better-placed rider.

The Final Overall Series Classification

In case of riders involved in a tie on the Final Overall Series Classification, at the end of the Series, the following will apply:

1. Run-off for 1st, 2nd and 3rd place.

For all other placings, the rider with the highest position in the last staged round will be deemed the better-placed rider.

Results and Final Series Points

At the end of each Final Series meeting, points equivalent to the Race points scored during heats 1 to 23 will be awarded to the riders.

The U21 World Champion will be the rider having collected the most Final Series points at the end of the Series (Final Overall Series Classification). In case of riders tied on points, Art.072.5.1 will apply.

Riders' gate position selections for the Final heat (Heat 18) will be chosen by the riders.

The draw order shall be determined by the second intermediate classification (after the Qualifying and Semi-Final Heats).

Riders' gate positions shall be chosen in presence of the Race Coordinator.

Before heat 16 or 17: The riders' total race points scored at the completion of heat 15 will determine the final meeting Classification.

Before heat 18: The riders' total race points scored at the completion of heat 16 and heat 17 will determine the final meeting Classification.

In the event of a tie in the points scored at the completion of Heat 9, 12, 15, 16 or 17 as specified above the finishing order will be determined by:

1. Precedence will be given to the riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th or 5th placing where applicable (a "0" for last placing being better than M - R - F - T - d - N).

Ice

074.1 GENERAL

The FIM Ice Speedway Gladiators World Championship will start with a qualifying meeting or a series of meetings leading to a Final Series.

Sixteen (16) programmed riders plus two staging FMNR Track Reserve riders will participate in each meeting.

Each FMNR staging an FIM Ice Speedway Gladiators World Championship meeting (Qualifying Round, Semi-Final meeting, a Challenge or a Final Series meeting) is guaranteed a minimum at least one programmed FMNR rider in that meeting.

The qualifying format will be published by the CCP prior to the start of each Ice Speedway Gladiators season.

074.2 OFFICIALS

074.2.1 Race Coordinator

The Race Coordinator (where appointed) is responsible for the conduct and efficient running of the FIM Ice Speedway Gladiators World Championship Final Series. The official is not a voting member of the International Jury, but shall be present at all International Jury meetings.

The position has full executive powers and the decisions made by the person appointed by the FIM to the position cannot be overturned by any other official, other than in the following circumstances:

- a) By the meeting referee, when on duty whether during practice or racing.
- b) A resolution passed by the International Jury.

The official is responsible for holding regular meetings with the riders and other appropriate interested parties in order to obtain a good cooperation and with the aim of continuously improving the standard of the FIM Ice Speedway Gladiators World Championship Final Series.

074.3 PARTICIPANTS

The number of programmed riders from each FMN will be allocated by the CCP to the qualifying meetings. Each FMN may only nominate its own riders who must hold a FIM World Championship license issued by that FMN.

Where a series of qualifying meetings are held, a rider who has qualified but unable to take part in any subsequent Qualifying Meeting for any reason will be replaced by the next best placed rider from his/her Qualifying Round.

Each FMNR staging an Ice Gladiators meeting must nominate two of its riders as Track Reserve riders.

074.3.1 Qualified riders

Nine (9) riders comprising the 2015 World Champion, and eight (8) riders who have qualified for the Final Series by virtue of their position in the Ice Gladiators Challenge.

The qualifying system will be determined through a qualifying system determined by the CCP (Q-rounds and/or semi-finals and/or the Challenge).

No FMN may have more than five programmed riders (Qualified and/or permanently Nominated riders) in any Final Series meeting. A nominated non-permanent Wild Card rider is not included in this total.

074.3.2 Nominated rider

Six (6) riders will be permanently nominated to the Final Series by the CCP.

The nomination of these riders will be decided and announced as soon as practical after the conclusion of the final qualifying meeting or Challenge.

074.3.3 Wild Card rider

One Wild Card rider will be nominated to each Final Series meeting. Any FMN may propose suitable Wild Card riders. These proposals must be made in writing to the FIM not later than 1 month prior to the meeting.

The CCP Bureau will make the final approval and nomination.

074.3.4 Track Reserve riders

When a Track Reserve rider takes part in the Classification heats having replaced one or more programmed riders, then the points they score will count for qualification towards Semi-final heats or a Final heat of that meeting. A Track Reserve is allowed to take part in a maximum of 5 Classification heats.

No track reserve rider will take part in Semi-Final or Final heats unless he has already qualified from the Classification heats.

The Track Reserve riders may have their fuel tank filled up during the race meeting and do not need to empty fuel tanks and refuel the bikes prior to each heat.

074.3.5 Nominated Substitute riders

If any of the permanently Qualified or Nominated riders is unable to participate in any one or more Final Series meeting (s) and the time allows, he/she will be replaced by the next rider from the FIM Ice Speedway Gladiators World Championship list of Qualified Substitutes, approved and published by the CCP. If this is not possible, the first Track Reserve rider will replace the missing rider as a programmed rider in the specific Final Series Meeting(s) concerned.

If a permanently Qualified or Nominated rider retires for the whole or the remaining of the Final Series, he/she will be permanently replaced by the next rider from the list of Nominated Substitutes. This is subject to the conditions as per 074.3.1

074.4 RIDING NUMBERS

For the Final series the permanent riding numbers are:

No: 1-15 will be decided by the CCP according to the previous year's World Championship classification and the qualifying meetings

No: 16 is the Wild Card rider

No: 17-18 are the FMNR nominated Track Reserve Riders

074.4.1 Riding number jackets

Each rider accepted for the FIM Ice Speedway Gladiators World Championship Final Series will be allocated an Ice Speedway Gladiators Final number between 1 and 15, which will be valid for the whole Championship of that year. In general, this Ice Speedway Gladiators Final number will reflect the Final result of the previous year's FIM Ice Speedway Gladiators World Championship.

In each Ice Speedway Gladiators World Championship Final meeting, riding number 16 to 18 will be allocated to the FIM Ice Speedway Gladiators wild card, reserve riders.

The allocated Ice Speedway Gladiators Final number will be used to resolve any eventual ties where the lowest riding number is deemed to be the better placed rider.

Additionally, the 15 permanent Ice Speedway Gladiators riders and Nominated Substitute Riders may apply to use their own personal racing numbers on their Race Jacket and bikes. They may choose any riding number with a maximum of 3 digits provided that it has not previously been allocated to another rider, or reserved by FIM. Riding numbers 1 to 18 are reserved for the use of FIM only.

To request a specific personal racing number the rider must send an application to FIM within a set deadline. Should more than one rider request the same number, preference will be given to either the rider who has a clear history of adopting that number, or if this is not the case for either rider, then the higher ranked rider will be allocated this number. Other riders will then need to select an alternative number. FIM will be responsible for resolving any dispute which might arise. Riders who have not requested a specific personal riding number within the deadline will be required to use their allocated Ice Speedway Gladiators Final number.

The FIM will supply the riding number jackets and it is compulsory for each rider to wear this riding number jacket at all times during Practice, Parade, Press Conferences, Rider's Briefing, Photo Session, Autograph Session, Racing, Prize-Giving Ceremony, Interviews and in the pits' area. The riders must also ensure the colour on the back of the race jacket corresponds to the helmet colour worn in each race.

The covering of any part of the riding number jacket in any way is not permitted.

(The riding number jackets must be returned to the Ice Race Coordinator immediately after the last heat or after the Press Conference for the riders concerned.) The rider is responsible for his riding number jackets and the cost of any riding number jacket not returned will be charged to the rider and deducted from the Prize Monies.

074.4.2 Front Fork Cover

The FIM will supply front fork covers to each rider. It is compulsory to fit these covers on the motorcycles during machine examination, practice and racing.

It is not permitted to cover any part of the front fork cover in any way.

(The front fork covers must be returned to the FIM Ice Race Coordinator immediately after the last heat.)

The rider is responsible for his front fork covers and the cost of any covers not returned will be charged to the rider and deducted from the Prize Monies.

074.6 FUEL

It is compulsory for every organizer of a FIM Ice Speedway Gladiators World Championship meeting to provide, free of charge (during practice and racing) the methanol for all the riders.

It is compulsory for the riders to use this fuel provided.

Methanol samples may be taken at random.

074.9 RESULTS

The final meeting classification will be according to the points scored during the whole meeting (heats 1-20 + semi-final heat + Grand Final heat) with the following exceptions:

Positions 1 to 4 will be according to the result in the Grand Final heat irrespective of the total points scored.

Final Series Meetings:

The total points scored by each rider during each Final Series meeting (heats 1-23) will be credited also as World Championship points in the overall Ice Speedway Gladiator World Championship classification. The FIM Ice Speedway Gladiators World Champion will be the rider having collected most World Championship points at the end of the Final Series.

After each Ice Speedway Gladiator Final Series meeting an intermediate classification list will be made.

In case of ties on the intermediate Ice Speedway Gladiator classification list in a Final Series meeting the lowest riding number jacket will be deemed the better placed rider.

074.9.1 Ties

After the completion of Heat 20, 21 or 22

When establishing the order between the riders in the list of Intermediate Classification at the conclusion of Heat 20, or following the completion of the Semi-Final Heats 21 and 22, any ties will be solved as follows:

- a) Precedence will be given to the riders (tied on race points) having the most number of 1st, 2nd, 3rd or 4th places (a “0” for last place is better than being disqualified for whatever reason).
- b) If the tie still persists and involves only 2 riders, precedence will be given to the better placed rider in the heat or heats where the 2 riders met.
- c) If the tie still persists and involves more than 2 riders, it shall be checked whether there is a possibility to determine a proper precedence. e.g. 3 riders tied on points: A, B, C:
 - Rider A has beaten rider B
 - Rider A has beaten rider C
 - Rider B has beaten rider C

Then the precedence will be: best position for rider A, then rider B and then rider C.

d) If solutions A), B) and C) cannot resolve the tie:

In the case of a final Series Meeting - the lowest riding number jacket will be deemed the better placed rider.

In the case of a qualifying meeting (s) - A ballot.

The Intermediate Ice Gladiator Classification

In case of riders tied on World Championship points in the Intermediate Classification, the lowest riding number jacket will be deemed the better-placed rider.

The Final Overall Ice Gladiators World Championship Classification

In case of riders involved in a tie on the Final Overall Classification, at the end of the Ice Gladiators Series, the following will apply:

1. Run-off for 1st, 2nd and 3rd place.
2. Run-off for the last qualifying place for the following year's Final Series.
3. For all other places, the lowest riding number jacket will be considered the better placed rider.

Travel expenses, as well as long distance and ferry costs, are included in the scale of expense reimbursement of each Championship meeting.

All amounts indicated in the scale of expense reimbursement are shown in Euros and are net amounts. All amounts can only be paid to the riders in Euros €.

When establishing the order between the riders in the list of Intermediate Classification at the conclusion of Heat 20, or following the completion of the Semi-Final Heats 21 and 22, any ties will be solved as follows:

- a) Precedence will be given to the riders (tied on race points) having the most number of 1st, 2nd, 3rd or 4th placings (a “0” for last placing is better than being disqualified for whatever reason).
- b) If the tie still persists and involves only 2 riders, precedence will be given to the better placed rider in the heat or heats where the 2 riders met.
- c) If the tie still persists and involves more than 2 riders, it shall be checked whether there is a possibility to determine a proper precedence (e.g. 3 riders tied on points: A, B, C:
 - Rider A has beaten rider B
 - Rider A has beaten rider C
 - Rider B has beaten rider C

Then the precedence will be: best position for rider A, then rider B and then rider C.

- d) If solutions a), b) and c) cannot resolve the tie, then the order will be determined by ballot.
