070.1.2 Definitions

A Track Racing meeting consists of all official activities related to racing, starting with the first administration controls and technical verifications until the settlement of all possible protests which are to be dealt with by the Jury or the Referee, if the Jury does not exist.

The actual racing consists of a series of several heats, between 4 or more riders or riders with passengers, referred to hereafter as rider(s), run on an elliptical track with a top surface in granite, shale, brick granules or similar unbound material rolled in on the base ground (Speedway), sand, shale or similar unbound material rolled in on the base ground (Long Track), firm, level turf with minor undulations (Grass Track) and ice with a minimum thickness of 10 cm (Ice Racing).

These meetings may be run between riders competing individually, as a pair, or as a team. Each heat will be limited to one class of motorcycles of the same group.

The FIM World Championships, Prize Events and League Cups recognised by the FIM, referred to hereafter as the FIM Championships may be staged in a series of qualifying meetings leading up to a Final, a Final Series or a Grand Prix Series.

In accordance with prevailing circumstance, the CCP/FIM at its sole discretion may cancel, alter, change or amend ANY aspect of the qualification system and/or diagrams (i.e. the selection of wild card riders, qualified riders, nominated riders, etc.) in respect of any FIM Championship/Cup/Trophy competition at any time.

LEAGUE

A league is a Speedway Championship run by an FMNR affiliated to the FIM and or in partnership with any FMNR/s affiliated to FIM.

LEAGUE MEETING

A league meeting that consists of international riders is, by definition, an International Speedway meeting.

CLUB

Clubs, associations, etc. enter a league tournament directly via registration or from a qualifying system. At the beginning of each season or before the beginning of the tournament, each Club (or association, etc.) will declare to its FMN and/or the FIM the list of Speedway riders composing its Speedway Team.

The riders taking part in an International League meeting can be from any nationality but must hold a FIM Speedway League licence issued by their FMN.

070.1.3 Supplementary Regulations

Supplementary Regulations, referred to hereafter as SR, must be issued by the FMNR in accordance with the FIM Sporting Code, the Track Racing Appendices or Regulations.

For all meetings counting towards the FIM Championships, the SR must be published at least in English and must be approved by the FMNR and the FIM, and subsequently ratified by the International Jury. One copy must be sent to the FIM Administration at least two months before the date of the meeting for approval by the FIM, preferably by electronic mail, confirmed by a copy sent by post.

After approval, and not later than 1 month before the date of the meeting, the FMNR must send copies of the approved SR to all persons concerned or connected with the meeting (International Jury Members, FIM Officials, FMNs, Riders, etc).

The SR must in no case modify the FIM Sporting Code and must be drawn up in conformity with the standard model established by the FIM Track Racing Commission, referred to hereafter as the CCP.

070.1.3.1 Amendments to the Supplementary Regulations

No amendment may be made to the SR after their approval by the FIM Administration or the FMNR. However, in exceptional circumstances, the International Jury or, if the meeting has not started, the FMNR after approval of the FIM, may authorise, an amendment to the SR, which has to be brought to the attention of all persons concerned.

070.1.4 Dates of the meetings

The Qualification systems, all meeting diagrams and the dates on which the FIM Championship and Prize Event meetings are to be held will be prescribed, according to Art. 20.1.1 of the FIM Sporting Code, by the CCP Bureau, subject to the approval of the FIM Board of Directors. Each meeting will be allocated to a FMN. To provide for postponements which may be necessary by bad weather conditions for example, the FMNR must declare 2 re-staging dates, which should always be the 2 days following the original date of the meeting, and notify them in the SR.

070.1.5 Responsibility for organisation

All entries must be made by the FMNs concerned to the FMNRs in writing on an entry form on which all information regarding the rider, passenger and team must be indicated.

In respect of competitions for Individual riders, once an entry form is submitted and accepted by the FIM, no further entry form is required from the competitor for subsequent qualifications rounds, semi-finals, race offs or finals in the same competition.

Entries must be made not later than 1 month before the meeting. If this is impossible, the entries must be sent by fax or e-mail immediately (not later than two working days) after receiving the results of the previous round.

Provisional entries made by the rider's FMN by telefax or e-mail must be confirmed with the rider's signature on the official entry form immediately upon his arrival at the place of the meeting.

Team entries must be made by the FMNs on a collective form.

FMNs failing to send in entry forms, in accordance with the above, will lose their allocated place in that FIM Championship meeting.

A rider or a team who refuses nomination by their FMN for a FIM Championship, Trophy, League or cup or, having accepted nomination refuses to take part, shall be deemed suspended internationally for a minimum period of one day before to **three days** after the meeting concerned. A rider or a team who starts in a FIM Championship and qualifies for the next round (i.e. Semi-Final, Final or Final series) must participate therein unless prevented from doing so by injury or illness (certified in writing to that effect by a suitably qualified doctor) or other "*force majeure*". A decision on the acceptability of other "*force majeure*" must be taken by the International Jury of the meeting from which the rider is absent or by the CCP Bureau, if the absence is known one week before the meeting.

A rider having accepted nomination or has qualified for a next round who is unable to take part having been declared and medically certified unfit to take part to the satisfaction of the FIM or Jury, shall be deemed suspended internationally for a minimum period of one day before (where applicable) to three days after the meeting concerned.

The FIM and the CCP Bureau can withdraw a rider's/team licence and give a suspension to a rider or a team who refuse to participate in a FIM Championship to which they have been qualified or in which they have already been entered.

Once a rider or a team has been entered, no FMN, other body or person may withdraw that competitor/team from the competition without an authorisation from the FIM. Violations of this provision shall be referred to the CDI.

The CCP may refer the case to the CDI pursuant to Article 3.3.2 last paragraph of the FIM Disciplinary and Arbitration Code.

A balloted position is open to any nomination from the FMN concerned, up until the rider signs on or reports to the Clerk of the Course at the meeting. For the following meetings, they will be effective according to the results of the previous meetings or as indicated on the ballot sheets.

Every year, the riders will be allocated by the CCP Bureau to the next year's rounds counting towards the FIM Championships based upon written applications from FMNs, received by the FIM within the deadline stipulated by the CCP Bureau.

Places made vacant by withdrawals will be filled by CCP Bureau decision and any FMN not honouring its engagements may be penalised after an investigation of the circumstances by the CCP.

Authorisation from the FIM does not imply nor include any FIM involvement in and/or liability for these support races/activities which are not run under the aegis and the responsibility of the FIM.

Priority must at all times be given to the Track Racing FIM Championship programme.

070.10.3 Punctuality in starting

All heats must start at the time announced and riders must hold themselves ready for the start when called upon to do so by the appointed Official.

The Referee must indicate the start of a 2 minutes period by means of a warning horn or bell audible in the pits area together with the flashing amber lights if all the riders are not in the starting area at that time. This warning shall apply to all 4 riders and can be given only once.

Except when the Referee considers that there are valid reasons for delaying the start of an ensuing heat, the interval between the finish of one heat and the start of the next shall not exceed 4 minutes including the 2 minutes period as mentioned above.

Should any of the riders not be ready to start or are not under the control of the Start Marshal within the 2 minutes, they shall be disqualified from the heat.

Riders who are members of the same team or pair can change with each other their programmed starting positions in the same heat.

However, the helmet colours must remain as programmed in the race format.

070.10.5 Starts

On the order of the Pits' Marshal (or after a signal in the pits) the required riders must leave the pits together and proceed under power immediately in an anti-clockwise (Track Racing Sidecar 1000cc in a clockwise) direction to the starting area where they must stop under the control of the Starting Marshal.

Engines must be kept running, machines parallel with the inner edge of the track and front wheels not more than 10 cm from the tapes of the starting gate.

The Referee, when satisfied that the riders are correctly positioned, must switch on the green light indicating that the start is imminent and that the Starting Marshal must walk away from the tapes. After a pause long enough for the riders to fix their attention on the tapes, the Referee must release the gate.

070.10.6 False start

A rider who allows their motorcycle to move forward and touch or break one or more tapes of the starting gate after the Referee has switched on the green light must be disqualified. The heat must then be started properly.

070.10.7 Delaying the start

A rider who fails to ride directly and without delay from the pits to the starting line, delays the start in any other manner or who prevents the starting gate from being released properly may be disqualified from the heat at the sole discretion of the Referee.

If, because of faulty operation of the starting gate, or for any other reason, the Referee considers a start to have been incorrect, he must immediately stop the heat and order a restart with all riders competing.

If the starting gate should fail to operate entirely, the Referee may start the heats by using the green light (which would be switched off to indicate the start); alternatively a flag may be used.

070.10.10 Starting assistance

After the green light has been switched on (or other starting warning given), or the start machine being released, no outside assistance may be given to any rider (except for the Flat Track).

If, at that time, a rider's machine is not moving under its own power, the rider concerned is disqualified from the heat and must leave the track with his machine.

070.10.11 Leaving the track

A rider whose machine crosses the inner edge of the track with 2 wheels must be disqualified unless, in the opinion of the Referee, the action was taken in the interest of safety for other riders or the rider involved was forced off-course by another rider.

If any part of the motorcycle's exhaust system during racing or practice becomes displaced, detached or damaged or fails in any other way so that all the exhaust gases do not pass through the silencer in a proper manner, the rider concerned will be immediately disqualified from the heat or from the practice run.

070.10.13 Foul or dangerous riding

The Referee shall immediately disqualify any rider team whom he considers indulges in foul, unfair or dangerous riding.

A rider, who, having started in a heat does not make an honest attempt to ride to the best of their ability, as judged by the Referee, shall be guilty of an offence, which may entail disqualification from the heat or a penalty.

There shall be no protest or appeal against a Referee's decision to declare a heat completed or as to his statement of foul, unfair or dangerous riding.

If, in the opinion of the Referee, such conduct produces an advantage to the rider (or team) involved or affects the chances of one or more riders, the Referee may stop the heat and order a re-run.

If any rider is unable to cross the finish line as a result of foul, unfair or dangerous riding on the part of another rider who, in consequence, has been disqualified, the disadvantaged rider shall be deemed to have finished the heat in the placing held immediately before the foul, unfair or dangerous riding and allowing for any advancement in placing following the disqualification of the guilty rider.

A similar system shall apply for a rider/sidecar team who, in the opinion of the Referee, has deliberately laid down his machine or has left the course in the interest of safety.

070.10.14 Outside assistance

A rider must be disqualified from a heat if, after the green light has been switched on (or other starting warning given), or the heat has been properly started, he receives outside assistance except for removing him and/or his machine from the track in the interest of safety.

All contacts by other persons with the rider or his machine, whether intended to give assistance or not, shall be deemed outside assistance.

070.10.15 Disqualifications

A disqualified rider must leave the track without delay and return to the pits as soon as possible after the heat is stopped or finished.

If a rider is disqualified after the finish of a heat, the following rider must be advanced one place.

Long & Grass Track and Track Racing Sidecar 1000cc

070.10.17 Finish of a heat

The finish of a heat shall occur in the case of any of the following circumstances.

a) when the front part of the front wheel of the motorcycle (whilst attached to the machine) passes over the finishing line after completing the appropriate number of laps provided the Competitor is in contact with his motorcycle.

b) when the referee has awarded the heat as provided for in these regulations.

070.10.18 False finish

When a heat has been indicated as finished by display of the black-and-white chequered flag before the required number of laps has been completed by the leading rider, the Referee must declare the heat void and order a rerun.

If the black-and-white chequered flag has not been shown after the completion of the required number of laps, the flag shall be considered to have been shown.

070.10.19 Rerun heat

If an accident on the track occurs and, in the opinion of the Referee, it is dangerous for the heat to continue, he must stop the heat. Only the Referee is empowered to order a heat to be stopped.

Any rider who, for any reason, is deemed to have been the primary cause of the heat being stopped shall be disqualified from the rerun. A reserve rider is not permitted to take their place.

The Referee may permit any rider who has fallen as a result of having been fouled or because they have deliberately laid down their motorcycle or left the course in the interest of safety to take part in the rerun. In such cases any outside assistance may be ignored.

If a Referee declares the heat over after one or more riders have crossed the finish line, it shall not be re-run. Except in very special circumstances and situations that are beyond the control of the referee and have influenced the heat result. Then a heat can be re-run. Only the referee can take this decision and order a re-run.

Any rider eligible to take part in a rerun may change their motorcycle for the rerun.

A reserve rider is permitted to replace a rider who has injured himself or damaged his motorcycle but who has not been deemed to be the primary cause of the heat being stopped.

When taking part in a rerun, riders must start from their original starting positions and any permitted reserve rider must occupy the position of the rider he is replacing.

When a rider has been disqualified in Pairs or Team heats, his partner may choose his original start position or that of his disqualified partner.

Any rider who has failed to start in, has retired from (which includes not proceeding under power when the heat was stopped) or has been disqualified from a heat which has been ordered to be rerun, shall be ineligible to take part in the rerun, except in circumstances where they have retired after being fouled or have stopped in the interest of safety as described above.

070.10.20 Withdrawal of a rider/Team

Having entered a meeting in the proper manner, any rider or team who fails to present themselves ready to ride at the time stipulated in the SR, or who refuses without reasonable cause, as determined by the Referee, to ride in any heat in which they are due to ride shall be guilty of an offence for which they may be penalised by the International Jury.

No rider may leave a meeting, withdraw from or cease to participate in a meeting without permission. Such permission can be given only by the Referee after consultation with the International Jury.

An FMN or an organiser, official or other person withdrawing, or attempting to withdraw any rider (except in case of injury), Pair or Team from a heat or from a meeting shall be guilty of an offence for which they may be penalised by the International Jury or the CCP Bureau. The penalty can be a fine or an unlimited suspension.

070.11 RESULTS

070.11.1 Calculation of results

Results are normally determined by points related to finishing order. Other methods may be used, but the method must be stated in the SR.

The winner of the heat is the rider who has completed the required number of laps in the shortest time. The riders following are placed according to the order of crossing the finish line.

Only the Referee is entitled to determine the points for each rider in each heat, taking also into consideration the second sentence of Art. 070.10.15 – Disqualifications.

His decision, once announced, is final and may not be the object of protest. Once the Referee has declared a heat over and he has announced the finishing order and respective points, in no case shall that heat be re-run. (see the only exception in Art. 070.10.19).

When two or more riders cross the finish line together, the combined points for the places must be shared equally between the riders concerned.

When World Championship points are awarded according to the finishing order of Final heats, a chronological criteria should be used for awarding points (when applicable).

A rider (for Sidecar, both the rider and passenger) must be in physical contact with his (their) machine when crossing the finishing line.

070.11.2 Riders' scores

In each heat, points are awarded to riders as follows:

Heats with 4 riders:	3 points for 1 st place
	2 points for 2 nd "
	1 point for 3 rd "
	0 points for 4 th "

Heats with 5 riders:	4 points for 1 st place
	3 points for 2 nd "
	2 points for 3 rd "
	1 point for 4 th "
	0 points for 5 th "

Heats with 6 riders:	5 points for 1 st place
	4 points for 2 nd "
	3 points for 3 rd "
	2 points for 4 th "
	1 point for 5 th "
	0 points for 6 th "

For riders who have not completed the required number of laps or, for any other reason have not fulfilled a heat, the following will be noted in the programme:

M = disqualified for 2 or 3 minutes rules
 R = retired from the race
 F = fall but not disqualified

T = disqualified for false start
 d = disqualified
 N = no start

070.11.3 Ties

In all run-off heats concerning the ties, the starting positions at the gate shall be balloted in presence of the Jury President.

Unless a more specific regulation is applicable to the competition the following will apply:

Individual Speedway and Ice Racing, Track Racing Sidecar 1000cc

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

For all other cases, ties will be solved as follows:

- a) Precedence will be given to the riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an "0" for last placing being better than M-R-F-T-d-N).
- b) If the tie still persists and involves only 2 riders, precedence will be given to the best placed rider in the heat where the 2 riders met.
- c) If the tie still persists and involves more than 2 riders, it shall be checked whether there is a possibility to determine a proper precedence (i.e. 3 riders tied on points: A, B, C):
 - rider A has beaten rider B
 - rider A has beaten rider C
 - rider B has beaten rider C
 Then the precedence will be: best position for rider A, then rider B and then rider C.
- d) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

When five riders are tied on points, the following run-off schedule must be used:

Heat 1:	Riders A, B and C
Heat 2:	Riders D and E
Heat 3:	2 nd and 3 rd from Heat 1 and 2 nd from Heat 2
Heat 4:	1 st from Heat 1, 1 st from Heat 2, 1 st and 2 nd from heat 3

The riders must be balloted to heats 1 and 2.

In case one or more run-offs cannot be held because of *force majeure*, then precedence will be given to the riders (tied on points) according to points a), b), c) or d) of this article.

Team Speedway and Team Ice Racing

For all meetings between Teams, should there be a tie for the first 3 places or the last qualifying place; the tie will be solved by a new heat with one rider from each Team involved in the tie.

If this heat cannot be held because of *force majeure*, the ties will be solved as follows:

- a) Precedence will be given to the Team (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an "0" for last placing being better than M-R-F-T-d-N) taking into consideration the placings of all riders of each Team.
- b) If solution a) cannot be used, the order shall be determined by ballot.

Starting Area

If only two riders take part in the run-off, the starting area must be divided into two equal parts (outer and inner start position).

If three riders take part in the run-off, the starting area must be divided into three equal parts.

Individual Long & Grass Track and Grass Track Youth Gold Trophy 125cc and Long Track Youth World Cup 250cc

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

In case of one or more ties at the end of the Qualifying Heats, the following will apply:

1. Precedence will be given to the riders having the most number of 1st, 2nd, 3rd, 4th, 5th or 6th placings where applicable (an "0" for last placing being better than M-R-F-T-d-N).
2. Ballot.

Team Long Track

In case of one or more ties for the Teams at the end of the Qualifying Heats, the following will apply:

- a) Precedence will be given to the Team (tied on points) having the most number of 1st, 2nd, 3rd, 4th, 5th or 6th placings. (an "0" for last placing being better than M-R-F-T-d-N), taking into consideration the placings of all riders of each Team.
- b) If the tie still persists, precedence will be given to the Team having the best single individual score.
- c) If the tie still persists, precedence will be given to the Team having the second single best individual score etc.
- d) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

If this heat cannot be held because of *force majeure*, the ties will be solved by ballot.

In case of a tie after a Final heat, precedence will be given to the Team of the rider who has won that Final.

070.11.4 Interruption of a meeting

If a meeting is interrupted or suspended for any reason whatsoever, where no more specific regulation is applicable to the discipline, the following rules will apply:

Speedway, Long & Grass Track, Track Racing Sidecar 1000cc and Ice Racing (when run on 1 day):

- a) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant (rider or team) but can continue the same day, then, only the remaining scheduled heats will be staged after the interruption. The final classification will be established taking into consideration the heats staged before and after the interruption.
- b) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant but cannot continue the same day, then, the results of the staged heats will not be taken into consideration. The meeting will be re-staged from the beginning on the date(s) stipulated in the Supplementary Regulations.

- c) When a meeting is interrupted and cannot continue on the same day, and if 50% or more of the scheduled heats per participant are accomplished, then, the meeting must be considered as valid. The position in the final classification will be established by adding the points scored by each participant (rider or Team) in the same number of accomplished heats which means that when a participant (rider or Team) had the opportunity to accomplish one more heat than the other participants, then, that heat must not be taken into consideration (example: an individual meeting is interrupted after heat 14 and cannot continue the same day. The final classification will then be established taking into consideration only heats 1 to 12). This rule applies entirely to each single day of a 2 days Ice Racing meeting.

Ice Racing (when run as “2-day formula”)

- a) When the meeting of the 1st day is interrupted before 50% of the scheduled heats per participant have been accomplished and the remaining heats cannot be staged the same day, then the results are not taken into consideration. Only, the heats of the 2nd day (which must be more than 50% of the scheduled heats per participant will count for the final classification.
- b) When a valid result of the 1st day is accomplished but the 2nd day of racing is interrupted before 50% of the scheduled heats per participant for that day have been accomplished, then the International Jury, taking into consideration the track and weather conditions, will decide if the Organisers can re-stage the 2nd day or consider, for the final classification only the results of the 1st day.

If an FIM Track Racing Championship meeting comprising a qualifying round, semifinal, Race Off or Challenge cannot be staged or restaged or reallocated to an alternative venue or FMN for exceptional circumstances (i.e. Weather) that are acceptable to the CCP Bureau, the CCP Bureau at its sole discretion will nominate a list of appropriate riders to be seeded into the next qualification round, Challenge or Final Series. The riders will be selected from original scheduled line up of the cancelled meeting.

The riders for the official “Nominated Substitute Riders list” will be nominated by the CCP Bureau.

070.11.5 Communication of results

Immediately after the meeting, the FMNR must send by fax (must be typewritten) or e-mail to the FIM the complete results of all participants who competed in their meeting. In all meetings, after the official programme of heats is terminated, there shall be a Prize-Giving Ceremony.

The riders or teams placed first, second and third shall attend the official Prize-Giving Ceremony.

In the FIM World Championships without a FIM Promoter, in the case where a meeting is interrupted, suspended or cancelled for any reason whatsoever so that a proper classification cannot be obtained and the meeting cannot be restaged on the dates given in the SR, the riders and teams are entitled to receive 50% of the amount shown in the scale of expense reimbursement divided by the number of riders (Reserve riders included).

070.12.4 FIM Awards

FIM medals and diplomas are awarded to winners in accordance with the FIM Sporting Code.

070.13 ALCOHOL AND DOPING CONTROLS

Tests may be carried out at any FIM Championships or International Meetings to detect alcohol and prohibited substances, according to the provisions laid down in the FIM Anti-Doping Code.

In all FIM Championships, doping test facilities must be provided according to the Antidoping code Art. 5.9.

Alcohol controls may be carried out by an Alcohol Control Officer before the start of the practice, or at any time during the meeting.

The sanctions for a positive doping and/or alcohol test will be pronounced according to the rules and proceedings laid down in the FIM Anti-Doping Code and FIM Disciplinary and Arbitration Code.

070.14 PROTESTS AND PENALTIES

Protests and appeals are subject to the rules and proceedings provided for in the FIM Disciplinary and Arbitration Code.

Any protest must be lodged immediately after the reason for the protest is known. They must be in writing and accompanied by the fee stipulated in the SR and submitted to the Clerk of the Course who in turn will submit them to the Referee.

If the protest requires a measurement of the capacity of an engine which proves to be in order, then the protesting party must pay the actual labour costs for dismantling and reassembling the engine, up to a maximum of 600 Euros.-.

Any irregularity, error or fraudulent action on the part of the rider (and/or the machine concerned) that could influence on the result of a heat or the race would be followed by sanctions (cancellation of the points of the heat or the meeting, disqualification, suspension, etc...).

Positions 1 to 4 will be according to the result in the Grand Final heat irrespective of the total points scored.

Final Series Meetings:

The total points scored by each rider during each Final Series meeting (**heats 1-23**) will be credited also as World Championship points **in the overall Ice Speedway Gladiator World Championship classification**. The FIM Ice Speedway Gladiators World Champion will be the rider having collected most World Championship points at the end of the Final Series.

After each **Ice Speedway Gladiator** Final Series meeting an intermediate classification list will be made.

In case of ties on the intermediate **Ice Speedway Gladiator** classification list in a **Final Series meeting the lowest riding number jacket will be deemed the better placed rider**.

074.9.1 Ties

After the completion of Heat 20, 21 or 22

When establishing the order between the riders in the list of Intermediate Classification at the conclusion of Heat 20, or following the completion of the Semi-Final Heats 21 and 22, any ties will be solved as follows:

- a) Precedence will be given to the riders (tied on race points) having the most number of 1st, 2nd, 3rd or 4th places (a "0" for last place is better than being disqualified for whatever reason).
- b) If the tie still persists and involves only 2 riders, precedence will be given to the better placed rider in the heat or heats where the 2 riders met.
- c) If the tie still persists and involves more than 2 riders, it shall be checked whether there is a possibility to determine a proper precedence. e.g. 3 riders tied on points: A, B, C:
 - Rider A has beaten rider B
 - Rider A has beaten rider C
 - Rider B has beaten rider C

Then the precedence will be: best position for rider A, then rider B and then rider C.

d) If solutions A), B) and C) cannot resolve the tie:

In the case of a final Series Meeting – the lowest riding number jacket will be deemed the better placed rider.

In the case of a qualifying meeting (s) – A ballot.

The Intermediate Ice Gladiator Classification

In case of riders tied on World Championship points in the Intermediate Classification, the lowest riding number jacket will be deemed the better-placed rider.

The Final Overall Ice Gladiators World Championship Classification

In case of riders involved in a tie on the Final Overall Classification, at the end of the Ice Gladiators Series, the following will apply:

1. Run-off for 1st, 2nd and 3rd place.
2. Run-off for the last qualifying place for the following year's Final Series.
3. For all other places, the lowest riding number jacket will be considered the better placed rider.
