FÉDÉRATION INTERNATIONALE
DE MOTOCYCLISME

VITO IPPOLITO
FIM President

ESTABLISHED IN 1904, THE FIM

was still a relatively young organisation when it created the FIM Rally in 1936. At the time, the event gathered just a few dozen participants together in Berlin but it was the first stepping stone on the road to success. Now, 80 years later, the FIM Rally is regarded as a major event by the Touring community and attracts more than 1,200 motorcyclists from 27 different nations, all eager to share their common passion for the motorcycle. The success of these events is such that the FIM Touring Commission now promotes four international Motorcycle Tourism gatherings and is developing another category: Adventure Touring. A belief in the power of ideas, a willingness to do what it takes to fulfil our ambitions, and a desire to unite motorcyclists from all four corners of the world: the FIM and Motul truly share these same values.

Dair® MISANO 1000

Misano 1000 is the new Dainese jacket incorporating a standalone electronic airbag system for use on the road.

The new D-skin 2.0 leather jacket houses the system's 6 sensors, electronics and GPS in its integral back protector, dispensing with the need for you to install a kit on your bike.

The D-air® control unit monitors the sensor signals 800 times a second using a sophisticated triggering algorithm which can then deploy the airbag to full inflation in just 25 milliseconds.

THE FUTURE OF PROTECTION IS IN D-AIR®.
