1. FIM Sporting Code
2. FIM Motocross Regulations
3. FIM Motocross Technical Regulations
4. FIM Disciplinary and Arbitration Code

### **4. FIM Championship Criteria**

---

#### **01.1.4 FIM Championship Criteria**

##### **01.1.4.032 FIM MX1/MX2 Motocross World Championships**

##### **01.1.4.033 FIM MX3 Motocross World Championship**

---

All organised meetings counting towards the corresponding FIM World Championship will be taken into consideration. However, the FIM Management Council or, if necessary, the FIM Executive Board is entitled, upon proposal from the FIM Motocross Commission and in exceptional circumstances, to make a decision deviating from this principle.

The winner of the FIM World Championship is the rider who has obtained the most points from all the Races of the Championship, irrespective of the number of Races he has completed.

In case of ties, the number of better placings will be taken into account.

If a tie still exists, the points scored in the last Race of the Championship will determine the order of placing in the final standings. If necessary, the points scored in the last but one Race of the Championship will determine the order of placing in the final standings, and so on...

For the FIM Manufacturers' World Championship, only the highest placed motorcycle of each Manufacturer will gain points, according to their position in each Race of the Championship.

In case of ties for the FIM Manufacturers' World Championship, the same conditions as for the riders will apply to determine the winner of the Championship.

In the case where a rider participates on motorcycles from different Manufacturers, it is the make of the motorcycle with which he has obtained the most points that will appear next to his name in the final standings, without, however, modifying the calculation for the FIM Manufacturers' World Championship.

The final FIM World Championship standings cannot be considered definitive until the time limits for protests and appeals have elapsed, all protests and appeals have been settled and a final decision has been taken by the competent bodies.

All FIM World Champions are obliged to attend the official FIM Prize-Giving Ceremony.

## **1.1 FIM MOTOCROSS WORLD CHAMPIONSHIPS**

During a FIM Motocross World Championship meeting, support races may be permitted.

However, these support races, as well as any other activities such as the vehicular use of the circuit during the meeting, including demonstrations or exhibitions, must at all times receive prior authorisation from the FIM and the FIM Championship Promoter.

Authorisation from the FIM does not imply nor include any FIM involvement in and/or liability for these support races/activities which are not run under the aegis and the responsibility of the FIM.

Priority must at all times be given to the FIM Motocross World Championship programme.

#### **In addition to 01.1.5:**

**01.1.5.032 FIM MX1/MX2 Motocross World Championships**

**01.1.5.034 FIM Motocross of Nations**

**Qualifying in each class will involve a Pre-Qualifying Practice and a Qualifying Race. Up to 40 riders may take part.**

Riders must always start **Pre-Qualifying Practice** from the waiting zone.

**Riders will qualify for their starting positions in the Qualifying Race according to their best result in the Pre-Qualifying Practice.** In case of ties, the second best times will be taken into consideration.

**If, for unforeseen reasons, a rider does not score any qualification time in the Pre-Qualifying Practice, he will be placed last on the starting grid for the Qualifying Race. If several riders are concerned, the times set in Free Practice will be taken in consideration. Should there still be riders without any times after this procedure, then a ballot will decide upon their starting position.**

If the **Pre-Qualifying Practice** is cancelled for any reason, times from the **Free Practice** will be used as qualifying times **for the Qualifying Race.**

If, for unforeseen reasons, no qualification results are obtained before the Warm-Up, then the latter may be treated as a **Qualifying session for the Grand Prix Races.** The Race Direction will decide upon any modifications to the time schedule and qualifying criteria.

##### 01.5.11.033 FIM MX3 Motocross World Championship

---

All the riders present at the meeting must take part in the Qualifying Practice.

Qualifying in the FIM MX3 class will be solely through Qualifying Practice.

The riders will qualify according to their best result in the Qualifying Practices. In case of ties, the second best times will be taken into consideration.

## 1.5 RUNNING OF THE MEETING

### 11. Qualifying

---

The fastest 40 riders will qualify for the FIM MX3 Motocross World Championship Races.

If, for unforeseen reasons, no qualification results are obtained before the Warm-Up, then the latter may be treated as Qualifying Practices. In collaboration with the FIM Race Director, the International Jury will decide upon any modifications to the time schedule and qualifying criteria.

The format of the Qualifying Practices will depend upon the number of riders present at the meeting:

#### a) Up to 50 riders

There will be one Qualifying Group.

The riders will qualify according to the following model:

MX3	Positions	Result
Qualifying Practice (40 minutes)	1 to 40	Advance to the FIM MX3 Motocross World Championship Races

If the Qualifying Practice session is cancelled for any reason, times from the last Free Practice session will determine the qualifying results.

#### b) More than 50 riders

There will be two Qualifying Groups "A" and "B".

The riders will qualify according to the following model:

MX3	Positions in each Group	Result
Qualifying Practice (40 minutes)	1 to 20	Advance to the FIM MX3 Motocross World Championship Races

If, for unforeseen reasons, only Qualifying Practice Group "A" is run, the 20 riders who qualified in this Qualifying Practice will advance to the FIM MX3 Motocross World Championship Races.

## 1.5 RUNNING OF THE MEETING

### 11. Qualifying

---

For the remaining non-qualified riders of Qualifying Practice Group "B", their last Free Practice results prior to the Qualifying Practice will be considered as decisive.

#### 01.5.11.034 FIM Motocross of Nations

---

In order to qualify for the FIM Motocross of Nations, teams must participate in the Qualifying Races and eventually the B-Final, scheduled respectively on the Saturday and the Sunday:

- MX1 class, Qualifying Race (20 minutes + 2 laps);
- MX2 class, Qualifying Race (20 minutes + 2 laps);
- "Open" class, Qualifying Race (20 minutes + 2 laps);
- B-Final (30 minutes + 2 laps).

The teams will qualify for the FIM Motocross of Nations; according to the following model:

<b>MX of Nations</b>	<b>Teams positioned</b>	<b>Result</b>
Qualifying Races (20 minutes + 2 laps)	1 to 19	Are qualified for the FIM Motocross of Nations
	20 to 32	Will participate in the B-Final
	As of 33	Are eliminated
B-Final (30 minutes + 2 laps)	1	Is qualified for the FIM Motocross of Nations
	2 to 13	Are eliminated

Riders may not change Qualifying Race.

A ballot will decide upon the starting position of each team/rider.

A total of 20 teams will qualify for the FIM Motocross of Nations, 19 teams according to their results in the Qualifying Races, as well as the winning team of the B-Final.

In both cases, the best two results of each team will be taken into account, irrespective of class.

In case of a tie, the best result of the third rider will be taken into account.

## **1.5 RUNNING OF THE MEETING**

### **11. Qualifying**

---

If a tie still exists, the best result of firstly the MX1, secondly the MX2 or thirdly the "Open" class will be taken into account.

If one Qualifying Race is cancelled for any reason, the results from the two other Qualifying Races will be counted to determine the team's qualifying position. In case of a tie with another team, the best result of one of the two riders will be taken into account. If a tie still exists, the best result of firstly the MX1, secondly the MX2 or thirdly the "Open" class will be taken into account.

If two Qualifying Races are cancelled for any reason, the results from the one Qualifying Race that has been run will be used to determine the team's qualifying position. This result will be counted together with the best lap time position of any of its two remaining riders in the Free Practice session. In case of a tie with another team, the best lap time position of each team's remaining third rider in the Free Practice session will be taken into account. If a tie still exists, the best result of firstly the MX1, secondly the MX2 or thirdly the "Open" class will be taken into account.

If all Qualifying Races are cancelled for any reason, lap time positions from the three riders' Free Practice sessions will be used to determine the team's qualifying position, still according to the principle of the two best results.

If the B-Final is cancelled for any reason, the remaining non-qualified teams will be classified according to their result in Qualifying. The first non-qualified team will then be designated the 20<sup>th</sup> team to qualify for the FIM Motocross of Nations.

If, for unforeseen reasons, no qualification results are obtained before the Warm-Up, then the latter may be treated as qualifying session. The Race Direction will decide upon any modifications to the time schedule and qualifying criteria.

The procedure to determine the classification in the results of riders who do not complete the lap within 5 minutes after the arrival of the winner will be according to the number of laps completed, and in the event of a tie, according to their finishing order at the end of the preceding lap.
