70.1.2 Definitions

A Track Racing meeting consists of all official activities related to racing, starting with the first administration controls and technical verifications until the settlement of all possible protests which are to be dealt with by the Jury or the Referee, if the Jury does not exist.

The actual racing consists of a series of several heats, between 4 or more Riders or Riders with passengers, referred to hereafter as Rider(s), run on a track formed by two straights joined by two semi-circles with a top surface in granite, shale, brick granules or similar unbound material rolled in on the base ground (Speedway), sand, shale or similar unbound material rolled in on the base ground (Long Track), firm, level turf with minor undulations (Grass Track) and ice with a minimum thickness of 20 cm (Ice Racing).

These meetings may be run between Riders competing individually, as a pair, or as a team. Each heat will be limited to one class of motorcycles of the same group.

The FIM World Championships, Prize Events and League Cups recognised by the FIM, referred to hereafter as the FIM Championships may be staged in a series of qualifying meetings leading up to a Final, a Final Series or a Grand Prix Series.

In accordance with prevailing circumstance, the CCP/FIM at its sole discretion may cancel, alter, change or amend ANY aspect of the qualification system and/or diagrams (i.e. the selection of wild card Riders, qualified Riders, nominated Riders, etc.) in respect of any FIM Championship/Cup/Trophy competition at any time.

LEAGUE

A league is a Speedway Championship run by an FMNR affiliated to the FIM and or in partnership with any FMNR/s affiliated to FIM.

LEAGUE MEETING

A league meeting that consists of international Riders is, by definition, an International Speedway meeting.

CLUB

Clubs, associations, etc. enter a league tournament directly via registration or from a qualifying system. At the beginning of each season or before the beginning of the tournament, each Club (or association, etc.) will declare to its FMN and/or the FIM the list of Speedway Riders composing its Speedway Team.

The Riders taking part in an International League meeting can be from any nationality but must hold a FIM Speedway League licence issued by their FMN.

70.1.3 Supplementary Regulations

Supplementary Regulations, referred to hereafter as SR, must be issued by the FMNR in accordance with the FIM Sporting Code, the Track Racing Appendices or Regulations.

For all meetings counting towards the FIM Championships, the SR must be published at least in English and must be approved by the FMNR and the FIM, and subsequently ratified by the International Jury. One copy must be sent to the FIM Administration at least two months before the date of the meeting for approval by the FIM, by electronic mail.

After approval, and not later than 1 month before the date of the meeting, the FMNR must send copies of the approved SR to all persons concerned or connected with the meeting (International Jury Members, FIM Officials, FMNs, Riders, etc).

The SR must in no case modify the FIM Sporting Code and must be drawn up in conformity with the standard model established by the FIM Track Racing Commission, referred to hereafter as the CCP.

70.1.3.1 Amendments to the Supplementary Regulations

No amendment may be made to the SR after their approval by the FIM Administration or the FMNR. However, in exceptional circumstances, the International Jury or, if the meeting has not started, the FMNR after approval of the FIM, may authorise, an amendment to the SR, which has to be brought to the attention of all persons concerned.

70.1.4 Dates of the meetings

The Qualification systems, all meeting diagrams and the dates on which the FIM Championship and Prize Event meetings are to be held will be prescribed, according to Art. 20.1.1 of the FIM Sporting Code, by the CCP Bureau, subject to the approval of the FIM Board of Directors. Each meeting will be allocated to a FMN. To provide for postponements which may be necessary (due to bad weather conditions for example), the FMNR must declare a re-staging date, which should always be the day following

the original date of the meeting, and notify accordingly in the SR.

In the event that the meeting cannot take place on either of the specified dates, the CCP Bureau will agree an appropriate rerun date and venue.

70.1.5 Responsibility for organisation

The organiser of the meeting, whether an FMNR, an individual, a club, a corporate body or a member of such a club or body, is responsible for the overall staging and organisation of the meeting for which a permit or other authorisation has been granted by the FMNR, and for provision of all equipment required for the efficient running of the meeting.

Authorisation from the FIM does not imply nor include any FIM involvement in and/or liability for these support races/activities which are not run under the aegis and the responsibility of the FIM.

Priority must at all times be given to the Track Racing FIM Championship programme.

70.10.3 Punctuality in starting

All heats must start at the time announced and Riders must hold themselves ready for the start when called upon to do so by the appointed Official.

The Referee must indicate the start of a 2 minutes period by means of a warning horn or bell audible in the pits area together with the flashing amber lights if all the Riders are not in the starting area at that time. This warning shall apply to all Riders and can be given only once.

Except when the Referee considers that there are valid reasons for delaying the start of an ensuing heat, the interval between the finish of one heat and the start of the next shall not exceed 4 minutes including the 2 minutes period as mentioned above.

Should any of the Riders not be ready to start, they shall be disqualified from the heat.

In individual competitions, the disqualified Rider shall be replaced by a track reserve Rider.

70.10.4 Starting positions

Riders who are members of the same team or pair can change with each other their programmed starting positions in the same heat.

However, the helmet colours must remain as programmed in the race format.

70.10.5 Starts

On the order of the Pits' Marshal (or after a signal in the pits) the required Riders must leave the pits together and proceed under power immediately in an anti-clockwise (Speedway Sidecar in a clockwise) direction to the starting area where they must stop under the control of the Starting Marshal.

Engines must be kept running, machines parallel with the inner edge of the track and front wheels not more than 10 cm from the tapes of the starting gate.

The Referee, when satisfied that the Riders are correctly positioned, must switch on the green light indicating that the start is imminent.

On the showing of the green light, the Start Marshal must commence to walk clear of the riders.

After a pause long enough for the Riders to fix their attention on the tapes and are standing still, the Referee must release the gate.

70.10.6 Unsatisfactory Starts

Where in the opinion of the Referee an improper or incorrect start has occurred, then the heat will be stopped immediately and a restart ordered.

The Referee will give a warning to any Rider deemed to have been the cause of or contributed to the unsatisfactory start. This will be communicated verbally to the rider concerned by the Race Director/Clerk of the Course before the race is restarted.

Note: A first starting offence involving a disqualification of a rider (i.e. touching the tapes) will also be deemed to be a warning as described above.

In circumstances where the Referee is of the opinion that an offence has been committed but the offending rider has gained no advantage and is deemed not to have interfered with any other rider in the same heat, the Referee may allow the heat to continue and issue the warning after the heat is completed. In these circumstances the offending rider must be informed before leaving the pits for his/her next heat.

Any starting offence committed after a warning has been given in the same meeting under this Regulation will result in the disqualification of the rider from that race. This will be signified by the showing of his disqualification light by the Referee. The place of any rider disqualified under this Regulation will be taken by a Reserve rider in accordance with Regulation 70.10.9.

70.10.7 False start

A Rider who allows their motorcycle to move forward and touch or break one or more tapes of the starting gate after the Referee has switched on the green light must be disqualified. The heat must then be started properly.

70.10.8 Delaying the start

A Rider who fails to ride directly and without delay from the pits to the starting line, delays the start in any other manner or who prevents the starting gate from being released properly may be disqualified from the heat at the sole discretion of the Referee.

In Pairs and Team meetings, a Rider disqualified under the provision of the same articles may not be replaced by a reserve Rider.

70.10.10 Faulty starting gate

If, because of faulty operation of the starting gate, or for any other reason, the Referee considers a start to have been incorrect, he must immediately stop the heat and order a restart with all Riders competing.

If the starting gate should fail to operate entirely, the Referee may start the heats by using the green light (which would be switched off to indicate the start); alternatively a flag may be used.

70.10.11 Starting assistance

After the green light has been switched on (or other starting warning given), or the start machine being released, no outside assistance may be given to any Rider.

If, at that time, a Rider's machine is not moving under its own power, the Rider concerned is disqualified from the heat and must leave the track with his machine.

70.10.12 Leaving the track

A Rider whose machine crosses the inner edge of the track marking with 2 wheels must be disqualified unless, in the opinion of the Referee, the action was taken in the interest of safety for other Riders or the Rider involved was forced off-course by another Rider.

This rule also applies to the crossing (solo: 2 wheels and Sidecar: Sidecar wheel) of the marking of the outer edge of a track.

70.10.13 Foul or dangerous riding

The Referee shall immediately disqualify any Rider (or Riders) whom he considers indulges in foul, unfair or dangerous riding.

A Rider, who, having started in a heat does not make an honest attempt to ride to the best of their ability, as judged by the Referee, shall be guilty of an offence, which may entail disqualification from the heat or a penalty.

There shall be no protest or appeal against a Referee's decision to declare a heat completed or as to his statement of foul, unfair or dangerous riding.

If, in the opinion of the Referee, such conduct produces an advantage to the Rider (or team) involved or affects the chances of one or more Riders, the Referee may stop the heat and order a re-run.

If any Rider is unable to cross the finish line as a result of foul, unfair or dangerous riding on the part of another Rider who, in consequence, has been disqualified, the disadvantaged Rider shall be deemed to have finished the heat in the placing held immediately before the foul, unfair or dangerous riding and allowing for any advancement in placing following the disqualification of the guilty Rider.

A similar system shall apply for a Rider/sidecar team who, in the opinion of the Referee, has deliberately laid down his machine or has left the course in the interest of safety.

70.10.14 Outside assistance

A Rider must be disqualified from a heat if, after the green light has been switched on (or other starting warning given), or the heat has been properly started, he receives outside assistance except for removing him and/or his machine from the track in the interest of safety.

All contacts by other persons with the Rider or his machine, whether intended to give assistance or not, shall be deemed outside assistance.

70.10.15 Disqualifications

A disqualified Rider must leave the track without delay and return to the pits as soon as possible after the heat is stopped or finished. If a Rider is disqualified after the finish of a heat, the following Rider must be advanced one place.

70.10.16 Time limit

No protest or appeal is permitted against this rule.

A Rider must be considered as having retired from a heat if he has not started their last lap before the winner has crossed the finish line.

Speedway and Ice Speedway

A Rider must also be considered as having retired from a heat if he has not completed the required number of laps within 3 minutes of the start.

Long Track and Track Racing Sidecar

A Rider must also be considered as having retired from a heat if they have not completed the required number of laps within 6 minutes of the start.

70.10.17 Finish of a heat

The finish of a heat shall occur in the case of any of the following circumstances.

- a) when the front part of the front wheel of the motorcycle (whilst attached to the machine) passes over the finishing line after completing the appropriate number of laps provided the Competitor is in contact with his motorcycle.
- b) when the Referee has awarded the heat as provided for in these regulations.
- c) If the Referee has cause to stop a heat after the leading Rider has passed the start/finish line to commence the last lap, the Referee has the sole discretion to award the heat based upon the positions of the competitors at the time the heat was caused to be stopped.

The disqualified Rider will be awarded no points and any competitors behind the disqualified Riders being advanced one place.

- d) Where racing incidents etc. have reduced the riders available to take part in the re run of any heat to a single competitor, the Referee may award the appropriate number of points to the remaining competitor without the need for a further rerun.

70.10.18 False finish

When a heat has been indicated as finished by display of the black- and-

white chequered flag before the required number of laps has been completed by the leading Rider, the Referee may declare the heat void and order a rerun except when the race has been awarded as allowed for in article 70.10.17.

If the black-and-white chequered flag has not been shown after the completion of the required number of laps, the flag shall be considered to have been shown.

70.10.19 Rerun heat

If an accident on the track occurs and, in the opinion of the Referee, it is dangerous for the heat to continue, he must stop the heat. Only the Referee is empowered to order a heat to be stopped.

Any Rider who, for any reason, is deemed to have been the primary cause of the heat being stopped shall be disqualified from the rerun. A reserve Rider is not permitted to take their place.

The Referee may permit any Rider who has fallen as a result of having been fouled or because they have deliberately laid down their motorcycle or left the course in the interest of safety to take part in the rerun. In such cases any outside assistance may be ignored.

Any Rider eligible to take part in a rerun may change their motorcycle for the rerun.

A reserve Rider is permitted to replace a Rider who has injured himself or damaged his motorcycle but who has not been deemed to be the primary cause of the heat being stopped.

When taking part in a rerun, Riders must start from their original starting positions and any permitted reserve Rider must occupy the position of the Rider he is replacing.

When a Rider has been disqualified in Pairs or Team heats, his partner may choose his original start position or that of his disqualified partner.

Any Rider who has failed to start in, has retired from (which includes not proceeding under power when the heat was stopped) or has been disqualified from a heat which has been ordered to be rerun, shall be ineligible to take part in the rerun, except in circumstances where they have retired after being fouled or have stopped in the interest of safety as described above.

70.10.20 Withdrawal of a Rider/Team

Having entered a meeting in the proper manner, any Rider or team who fails to present themselves ready to ride at the time stipulated in the SR, or who refuses without reasonable cause, as determined by the Referee, to ride in any heat in which they are due to ride shall be guilty of an offence for which they may be penalised by the International Jury.

No Rider may leave a meeting, withdraw from or cease to participate in a meeting without permission. Such permission can be given only by the Referee after consultation with the International Jury.

An FMN or an organiser, official or other person withdrawing, or attempting to withdraw any Rider (except in case of injury), Pair or Team from a heat or from a meeting shall be guilty of an offence for which they may be penalised by the International Jury or the CCP Bureau. The penalty can be a fine or an unlimited suspension.

70.11 RESULTS

70.11.1 Calculation of results

Results are normally determined by points related to finishing order or in knock-out-heats (without points) are determined only related to finishing order and chronological order in case of riders not finishing the heat.

The winner of the heat is the Rider who has completed the required number of laps in the shortest time. The Riders following are placed according to the order of crossing the finish line.

Only the Referee is entitled to determine the points or **placing** for each Rider in each heat, taking also into consideration the second sentence of Art. 70.10.16 - Disqualifications.

His decision, once announced, is final and may not be the object of protest. Once the Referee has declared a heat over and he has announced the finishing order and respective points, in no case shall that heat be re-run. (The only exceptions are being as per Art. 70.10.19 and 70.10.20 and below.)

In very special circumstances however involving situations that are beyond the control of the Referee and have influenced the heat result the Referee can take a decision to order a re-run of the heat concerned

or amend the result of the heat before the start of the next heat or within 5 minutes in the case of the last heat of the meeting.

When two or more Riders cross the finish line together and heat-points have to be awarded, the combined points for the places must be shared equally between the Riders concerned.

In knock-out-heats (i.e. semi-finals and finals in Long Track WC Finals, Speedway U21 WC Finals, Ice-Speedway WC Finals, etc.) a chronological criteria should be used for determining the placings of the riders. The positions will be determined by the order, in which the participating riders cross the finish line, then by the order in which each of the other riders was disqualified or withdrew from the heat (first rider disqualified/withdrawn/retired automatically being last and so on). If this fails to determine a result then their relative positions in the intermediate classification after the qualifying heats will apply with the better placed rider in the intermediate classification taking precedence (for example when 2 or more riders finish or fail to finish the heat at the same time).

A Rider (for Sidecar, both the Rider and passenger) must be in physical contact with his (their) machine when crossing the finishing line.

70.11.2 Riders' scores

Please refer to each Championship specific rules

For Riders who have not completed the required number of laps or, for any other reason have not fulfilled a heat, the following will be noted in the programme (except for knock-out-heats):

M = disqualified for 2 minutes rules

R = retired from the race

F = fall but not disqualified

T = disqualified for false start

d = disqualified

N = no start

70.11.3 Ties

70.11.3.1 Run Off Heats

It is compulsory for Organisers to make available an appropriate internet connection for use by the Jury throughout the period of event.

70.11.6 Alteration of results

No alteration to the list of results may be made after the expiry of the time limit, which is set for protests. This does not place any restriction on the right of protest according to the FIM Disciplinary and Arbitration Code.

70.11.7 Prize-Giving Ceremony

In all meetings, after the official programme of heats is **completed**, there shall be a Prize-Giving Ceremony.

The Riders or teams placed first, second and third shall attend the official Prize-Giving Ceremony.

The presence of the FMNR or FIM Officials at the Prize-Giving Ceremony is not a confirmation of the official results.

70.12 RIDERS' AND TEAMS' EXPENSE REIMBURSEMENT

The expense reimbursement due to the Riders or teams shall be in accordance with the agreement between the Riders or teams and the organiser or as laid down in the SR.

For the FIM World Championships, the expense reimbursement due to the Riders or teams is indicated in the scales of the different Championships under the relevant Appendices.

70.12.3 Expense reimbursement in case of cancellation or interruption of a meeting

In the FIM World Championships without a FIM Promoter, in the case where a meeting is interrupted, suspended or cancelled for any reason whatsoever so that a proper classification cannot be obtained and the meeting cannot be restaged on the dates given in the SR, the Riders and teams are entitled to receive 50% of the amount shown in the scale of expense reimbursement divided by the number of Riders (Reserve Riders included).

70.12.4 FIM Awards

FIM medals and diplomas are awarded to winners in accordance with the FIM Sporting Code.

70.13 ALCOHOL AND DOPING CONTROLS

Any irregularity, error or fraudulent action on the part of the Rider (and/or the machine concerned) that could influence on the result of a heat or the race would be followed by sanctions (cancellation of the points of the heat or the meeting, disqualification, suspension, etc...).

Each FMNR of a FIM Speedway World Championship meeting (Qualifying rounds or Challenge) is guaranteed at least one Rider from its Federation in this meeting.

71a.1.1 Race Director

For the Challenge, the FIM will appoint a Race Director.

The Race Director is responsible for the conduct and efficient running of a specified meeting or meetings. He is a voting member of the International Jury, and shall be present at all International Jury meetings.

He is responsible for holding regular meetings with the Riders and their associations in order to obtain a good cooperation and with the aim of continuously improving the standard of the FIM events.

71a.2 PARTICIPANTS

For this Championship each FMN must nominate its own Riders. The Riders must hold a World Championship licence issued by their FMN. The number of Riders from each FMN will be allocated by the CCP to the qualifying meetings.

The CCP will decide the number of qualified Riders from each qualification round before the first qualification meeting.

Riders qualifying for the FIM Speedway Grand Prix Qualification Meetings Challenge:

- The top 4 from each of the four FIM Speedway Grand Prix World Championship Qualification Meetings, will qualify for the FIM Speedway Grand Prix World Championship Challenge. If there is no FMNR Rider qualified for the Challenge, only the Top 3 Riders of the Qualifying Round 4 will qualify.
- Any additional Riders that might be required for the FIM Speedway WC Grand Prix Challenge will be elevated from the FIM Speedway WC Grand Prix Qualifying Rounds. The first will be the next highest placed Rider from Qualifying Round 1 and alternate between the Qualifying Rounds thereafter.

- As soon as possible after the completion of the four Grand Prix Qualification meetings, the CCP Bureau will publish the order of precedence for the additional Riders to be elevated to the FIM Speedway Grand Prix WC Challenge.

In the event that the qualifying rounds are canceled due to force majeure, the FIM CCP Bureau will decide the procedure of nominations for the SGP Challenge. The Organising Federation is granted a Wild Card allocation + 2 track reserve Riders for the meeting.

Time Limit - Replacement Riders

In circumstances where a qualified Rider cannot take part in any meeting as specified above, for a reason accepted by the CCP Bureau they will be replaced in accordance with the above subject to official communication being communicated to the replacement Rider up to 48 hours prior to the start time of the first heat as per the supplementary regulations. Thereafter any vacant position at the discretion of the CCP Bureau may be taken by a track reserve in accordance with the order of their nomination (ie 17, then 18 etc).

71a.5 TIES

Unless a more specific regulation is applicable to the competition the following will apply:

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

For all other cases, ties will be solved as follows:

- a) Precedence will be given to the Riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an “0” for last placing being better than M-R-F-T-d-N).
- b) If the tie still persists and involves only 2 Riders, precedence will be given to the best placed Rider in the heat where the 2 Riders met.
- c) If the tie still persists and involves more than 2 Riders, it shall be checked whether there is a possibility to determine a proper precedence (i.e. 3 Riders tied on points: A, B, C):

Rider A has beaten Rider B Rider A has beaten Rider C Rider B has beaten Rider C.

Then the precedence will be: best position for Rider A, then Rider B and then Rider C.

- d) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

In case one or more run-offs cannot be held because of force majeure, then precedence will be given to the Riders (tied on points) according to points a), b), c) or d) of this article.

71a.6 INTERRUPTION OF A MEETING

- a) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant but can continue the same day, then, only the remaining scheduled heats will be staged after the interruption. The final classification will be established taking into consideration the heats staged before and after the interruption.
- b) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant but cannot continue the

same day, then, the results of the staged heats will not be taken into consideration. The meeting will be re-staged from the beginning on the date(s) stipulated in the Supplementary Regulations.

- c) When a meeting is interrupted and cannot continue on the same day, and if 50% or more of the scheduled heats per participant are accomplished, then, the meeting must be considered as valid. The position in the final classification will be established by adding the points scored by each participant in the same number of accomplished heats which means that when a participant had the opportunity to accomplish one more heat than the other participants, then, that heat must not be taken into consideration (example: an individual meeting is interrupted after heat 14 and cannot continue the same day. The final classification will then be established taking into consideration only heats 1 to 12).

If an FIM Track Racing Championship meeting comprising a qualifying round, semifinal, Race Off or Challenge cannot be staged or restaged or reallocated to an alternative venue or FMN for exceptional circumstances (i.e. Weather) that are acceptable to the CCP Bureau, the CCP Bureau at its sole discretion will nominate a list of appropriate Riders to be seeded into the next qualification round, Challenge or Final Series. The Riders will be selected from original scheduled line up of the cancelled meeting.

The Riders for the official “Nominated Substitute Riders list” will be nominated by the CCP Bureau.

71a. 7 SCALE OF EXPENSE REIMBURSEMENT

Travel expenses, as well as long distance and ferry costs, are included in the scale of expense reimbursement of each Championship meeting.

All amounts indicated in the scale of expense reimbursement are shown in Euros and are net amounts. All amounts can only be paid to the Riders in Euros €.

71b.1 DEFINITIONS

71b.1.1 Speedway League meeting

An International Speedway League meeting consists of all official activities related to racing, starting with the first administration controls and technical verifications until the settlement of all admissible protests which are to be dealt with by the Jury or the Referee.

The meeting must be held according to the relevant FMNs' League rules and the FIM Technical Regulations, Sporting Code, Anti-doping Code and FIM regulations.

71b.1.2 Dates of the meetings

In the best interest of each country where International Speedway League meetings are being held, an International Speedway League Calendar is created each year in order to harmonise the dates. The calendar is based on a Weekly Slot System where each of the four biggest countries for League Speedway (BSPA, DMU, PZM and SVEMO) has its own priority day or days. The calendar is created in cooperation with the FIM and FIM Europe Track Racing Commissions to find the best possible solutions for all parties. The calendar is in the last instance approved by the FIM International Speedway League Bureau (ISLB) together with the FIM and FIM Europe Track Racing Director/Chairman.

All League Meetings listed in the International Speedway League Calendar must also be inscribed in the FIM Calendar for **International Speedway League Meetings**. This is so the insurance included in the appropriate licences for League Racing are valid.

Changes in this Calendar can be done by the affected FMN up to three days before the date of the meeting.

A League Championship meeting always take priority over any challenge/cup matches and open meetings.

71b.1.3 Weekly Slot System

The following priority days has been agreed between all involved parties for the Weekly Slot System Calendar.

BSPA, Premiership = Monday & Thursday

SVEMO, Elitserien = Tuesday & Thursdays in cooperation with BSPA (Svemo have second priority to BSPA on Thursdays)

DMU, DSL = Wednesday

PZM, Ekstraliga = Friday & Sunday (PZM have second priority to DMU on Wednesdays during Ekstraliga Play Offs)

PZM, Liga 1 = Saturday & Sunday (When no FIM/FIME)

FIM / FIM Europe = Saturday (FIM / FIM Europe has priority over any League Championship meetings on this day, including the re-staging dates). FIM and FIM Europe also have priority over any League Championship meetings on other weekdays (including the re-staging dates), providing the date of the meeting has been agreed by the affected ISLB Bureau member or members and is listed in the approved International League Calendar at the start of the season.

During these days stated in the Weekly Slot System Calendar this league has priority on all their contracted riders, regardless of nationality. Where a rider is contracted to more than one ISLB full member they must ride for the team who has priority on any given day or date in accordance with the rules as above.

Each League must also list some official re-staging dates on their priority day in the League Calendar where eventual postponed meetings must be held. Should any other days be needed for postponed meetings and the chosen date clashes with another Leagues priority day, this League will have priority on all their contracted riders, regardless of nationality.

Agreements can be made between two FMNs for the use of “their priority day” concerning both League and re-staging dates. Such agreements must be communicated to all ISLB Bureau members.

With the introduction of the Weekly Slot System to resolve problems concerning availability of the riders, no FMN are allowed to make National restrictions concerning priority of riders.

71b.1.3.1 Clash of dates

If a clash of dates is caused and the above approved Weekly Slot System does not cover the Clash the following will apply:

1. Where the clash involves a rider from the two clashing FMNs, precedence is given to the nationality of the rider, (i.e. a Swedish rider will compete for his Swedish team).
2. Where the clash involves a rider from an FMN outside those involved in the clash, priority will go to the club for whom the rider has made the greater number of total appearances in League Championship Meetings only, taking into account the current season and the previous season if needed.

If the rider has ridden in equal number of meetings for both clubs the previous season will also count, but if the rider rode for one of the two clubs the previous year, this club will take priority.

3. If none of the above are decisive and no agreement can be made between the two involved leagues, the case must be referred to the ISLB Bureau who will make the decision. The case must be referred to ISLB no later than five days before the relevant meeting.
4. In the event that agreement cannot be reached between the ISLB members and the votes are equal, the CCP Director will have the casting vote.

71b.1.3.2 Change of Priority Day

Should at any time a full member of the ISLB for any reason wish a change to their priority day(s) to be considered, they may make an application, in writing, to all other full members of the ISLB a minimum of 12 months prior to the date on which they wish the change to become effective. This to enable full consideration to be given to implications of the proposed change on other members of the Bureau.

71b.1.4 FIM International Speedway League Bureau

The FIM International Speedway League Bureau (ISLB) is an International body and a part of the FIM Track Racing Commission. The ISLB deals with all the International matters related to the different Leagues.

The ISLB is competent to study and approve amendments to the FIM Speedway World League proposed by the CCP or other parties involved in

the competition.

The FIM International Speedway League Bureau shall consist of:

- One member from BSPA
- One member from DMU
- One member from PZM
- One member from SVEMO

The ISLB Chairman is nominated by the ISLB Members with the majority of votes; including the vote of the CCP Director (CCP Director has a casting vote).

71b.2 DUTY OF THE FIM INTERNATIONAL SPEEDWAY LEAGUE BUREAU

The ISLB shall consider all CCP decisions that may inflict on the International League activity, also including technical changes, calendar etc.

71b.3 RIDERS

To compete in a foreign League the rider must be a holder of one of the following valid FIM Licences:

- Annual Individual Speedway Grand Prix World Championship Licence
- Annual Track Racing World Championship Licence
- Annual or One Event FIM International Meeting Licence.

The Licences are supplied by the FIM and issued by each FMN, except for the SGP Licence. The FMN is also responsible for the riders insurance according to Art. 110.2 Sporting Code and the cost of the licences.

71b.3.1 Start Permission

After signing a foreign rider, the riders FMN must issue a Start Permission according to these rules for the rider to be able to compete in the relevant League.

The FIM Start Permission template “Start Permission for International Speedway Leagues” (updated 2018-11-05) must be used. Start Permissions can only be issued for a minimum of one season at the time or for the same length of time as of the contract between the club and the rider. It is not allowed for any FMN to enter shorter terms or make any other changes to this start permission document.

The start permission must be issued within 5 working days of being requested by the FMN concerned or the rider.

Start Permissions can only be withdrawn by the issuing FMN for disciplinary reasons or if the foreign club has been guilty of breach of contract towards the rider.

If a conflict occurs between a rider and/or the Leagues, the ISLB will decide upon any issue.

71b.3.2 Age of Riders

The age of the riders shall be determined in accordance with the FIM Track Racing Appendices.

71b.4 RACE FORMAT

Each FMN/League decides its race format according to its own league system.

The FIM Speedway Under 21 World Championship will start with qualifying meetings and/or Semi-finals leading up to a Final Series of two or more final meetings.

In the event that the qualifying rounds are canceled due to force majeure, the FIM Speedway U21 World Championship will start with the finals.

16 Riders (plus 2 track reserve Riders) will compete in each meeting.

Each FMNR of a FIM Speedway Under 21 World Championship qualifying meeting (Qualifying Round and/or Semi-Final) is guaranteed at least one programmed Rider from its federation in this qualifying meeting.

The CCP decides the number of qualified Riders from each Qualifying Round and/or Semi-Final before the first Qualifying Meeting.

Meetings will be conducted in accordance with the FIM Track Racing Appendices unless as specified below.

72.1.1 Race Director

For the Final series, the FIM will appoint a Race Director.

The Race Director is responsible for the conduct and efficient running of a specified meeting or meetings. He is a voting member of the International Jury, and shall be present at all International Jury meetings.

He is responsible for holding regular meetings with the Riders and their associations in order to obtain a good cooperation and with the aim of continuously improving the standard of the FIM events.

72.2 PARTICIPANTS

For **the qualifying meetings**, each FMN must nominate its own Riders. The Riders must hold a FIM World Championship licence issued by their FMN. The number of Riders from each FMN will be allocated by the CCP to the qualifying meetings.

In the event that the qualifying rounds are canceled due to force majeure, the FIM U21/Youth Commission will decide the procedure of nominations for the final(s). The Organising Federation is granted a Wild Card allocation + 2 track reserve Riders for the meeting.

The CCP will decide the number of qualified Riders from each qualification

round before the first qualification meeting.

Should a qualified/nominated Rider be unable to take part in any subsequent round (semi - final/race off/final series etc) any additional Riders that may be required will be elevated from the previous round of qualification meetings from the entry list of permanent riders issued by FIM U21 Commission. He first will be the next highest placed Rider from Qualification Meeting No: 1 and alternate between the other qualification rounds in numbered sequence order.

In the event that the qualifying rounds are canceled due to force majeure, he will be elevated from the Substitute list.

72.3 RE-STAGING OR ABANDONMENT OF A MEETING

If a FIM Speedway Under 21 Final meeting is interrupted or suspended for any reason whatsoever, the following rules will apply:

1. If the meeting is interrupted before heat 16 is accomplished, and the remaining heats cannot be completed the same day, then the results are not taken into consideration and the whole meeting must be re-staged.
2. If the meeting is interrupted before heat 20 is accomplished and the remaining heats cannot be completed, then the race points scored at the completion of heat 16 will determine the result.

In the event of a tie in the points scored at the completion of Heat 16 the finishing order will be determined by the formula set out in Art. 70.11.3.3.

3. If the meeting is interrupted before heat 21, heat 22 or heat 23 is accomplished and the remaining heats cannot be completed, then the results will be considered valid and the following will determine the final meeting Classification and FIM Speedway Under 21 Final points:

Before heat 21 or 22: The Riders' total race points scored at the completion of heat 20 will determine the final meeting Classification.

In the event of a tie in the points scored at the completion of Heat 20 the finishing order will be determined by the formula set out in Art. 70.11.3.3.

Before heat 23: The Riders' results of the knock-out heats (semi-finals) will determine place 1-8 (see also Art. 70.11.3.2). The remaining places are determined by the intermediate classification after heat 20.

72.4b Ties

Unless a more specific regulation is applicable to the competition the following will apply:

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

For all other cases, ties will be solved as follows:

- e) Precedence will be given to the Riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an “0” for last placing being better than M-R-F-T-d-N).
- f) If the tie still persists and involves only 2 Riders, precedence will be given to the best placed Rider in the heat where the 2 Riders met.
- g) If the tie still persists and involves more than 2 Riders, it shall be checked whether there is a possibility to determine a proper precedence (i.e. 3 Riders tied on points: A, B, C):

Rider A has beaten Rider B Rider A has beaten Rider C Rider B has beaten Rider C.

Then the precedence will be: best position for Rider A, then Rider B and then Rider C.

- h) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

In case one or more run-offs cannot be held because of force majeure, then precedence will be given to the Riders (tied on points) according to points a), b), c) or d) of this article.

INTERRUPTION OF A MEETING

- a) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant (Rider or team) but can continue the same day, then, only the remaining scheduled heats will be staged after the interruption. The final classification will be established taking into consideration the heats staged before and after the interruption.
- b) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant but cannot continue the same day, then, the results of the staged heats will not be taken into consideration. The meeting will be re-staged from the beginning on the date(s) stipulated in the Supplementary Regulations.
- c) When a meeting is interrupted and cannot continue on the same day, and if 50% or more of the scheduled heats per participant are accomplished, then, the meeting must be considered as valid. The position in the final classification will be established by adding the points scored by each participant in the same number of accomplished

heats which means that when a participant had the opportunity to accomplish one more heat than the other participants, then, that heat must not be taken into consideration (example: an individual meeting is interrupted after heat 14 and cannot continue the same day. The final classification will then be established taking into consideration only heats 1 to 12).

If an FIM Track Racing Championship meeting comprising a qualifying round, semifinal, Race Off or Challenge cannot be staged or restaged or reallocated to an alternative venue or FMN for exceptional circumstances (i.e. Weather) that are acceptable to the CCP Bureau, the CCP Bureau at its sole discretion will nominate a list of appropriate Riders to be seeded into the next qualification round, Challenge or Final Series. The Riders will be selected from original scheduled line up of the cancelled meeting.

The Riders for the official “Nominated Substitute Riders list” will be nominated by the CCP Bureau.

72.5 FINAL SERIES

Nominated Substitutes Riders

In case of the absence of one or more Riders, the first available Nominated Substitute Rider or Riders, according to their placing in the official Under 21 “Nominated Substitutes Rider list”, will be elevated for that meeting, and take the place(s) of the relevant missing Rider(s).

The Riders for the official “Nominated Substitute Riders list” will be nominated by the FIM Speedway U21 Commission.

All Nominated Substitute Riders must submit the official FIM Entry Form to the FIM before the deadline required by the FIM Speedway U21 Commission. This entry form must be duly completed and signed by the Rider and his FMN.

In the case of injury or illness a suitably qualified medical practitioner must certify injury or illness in writing to that effect.

A Riders FMN is responsible for the completion of this entry form and submitting it to the FIM/CCP Administration, furthermore, the Rider commits himself by his signature to be fully aware of all the FIM rules; to accept them all and to compete in the FIM Speedway Under 21 World Championship meeting for which he has been nominated.

A Nominated Substitute Rider, who without a reason accepted by the FIM Speedway U21 Commission refuses to take part in a meeting, may be removed from the Nominated Substitute Riders list for the rest of the season.

Each Rider accepted for the FIM U21 World Championship will be allocated a number between 1 and 15, which will be valid for the FIM U21 World Championship of that year. In each Final Meeting riding number 16 will be allocated to the Wild Card Rider and riding numbers 17 and 18 to the Track Reserve Riders. The allocated number will be used to resolve any eventual ties where the lowest riding number is deemed to be the better placed Rider. Additionally, the 15 permanent and 3 substitute U21 Riders may apply to use their own personal racing numbers on their race jacket and bikes. They may choose any riding number with a maximum of 3 digits provided that it has not previously been allocated to another Rider, the number cannot start with a 0. Riding numbers 1 to 22 are reserved for the use of FIM only. To request a specific personal racing number the Rider must send an application to FIM within a set deadline. Should more than one Rider request the same number, preference will be given to either the Rider who has a clear history of adopting that number, or if this is not the case for either Rider, then the higher ranked Rider will be allocated this number. Other Riders will then need to select an alternative number. Riders who have not requested a specific personal riding number within the deadline will be required to use their allocated U21 number. The FIM U21 Promoter will supply the riding number jackets and it is compulsory for each Rider to wear this riding number jacket at all times during TV Interviews, Draws, Practice, Parade, Press Conferences, Racing, Prize-Giving Ceremony and in the pits area. The covering of any part of the riding number jacket in any way is not permitted. Rider's Scores

In each heat, points are awarded to the Riders and Teams as follows:

- 2 teams competing: 4 points for 1st place
- 3 points for 2nd place
- 2 point for 3rd place
- 0 point for 4th place

In the case of a dead heat, the combined points for the places must be shared equally between the Riders concerned.

Tie for:	
1st / 2nd place	3½ points
2nd / 3rd place	2½ points
3rd / 4th place	1 point

Ties

1b In the event of equal points for two teams after the Intermediate Classification of the heat 23 , the team that scored the most points when the two teams met will be considered the better placed team.

2b If the tie cannot be decided. The team scoring the higher number of bonus points will be considered the better placed team.

3b In the event of equal points for three or more teams, after the conclusion of the qualification heats, the team scoring the higher number of bonus points will be considered the better placed team.

4b If there still remains a tie, the amount of first, second, third and fourth places in total taken by all riders will decide the better placed team. Zero for last placing is better than for M-R-F-T-d-N.

5b If all other solutions cannot resolve the tie, then the Team with the highest 2021 Ranking will be deemed the better placed Team

If a meeting cannot reach heat 21, the results at conclusion of heat 14 will be used. If the teams have not met, 2b will be used then 2d and finally 2e will determine the better placed team.

72b.12 Replacing an Injured Rider

In the event of a rider being injured but not disqualified from the re-run of a heat, his place may be taken by the 3rd Rider if available (not compulsory), should the substitute Rider be injured in the re-run heat in similar circumstances without disqualification, he may be replaced by the original Rider if fit.

72b.13 Results and Overall Classification

The Team winning the Heat 23 shall be declared the winner, the losing team in the heat 23 will be placed 2nd, and the Losing team from the heat 22 heat will be placed 3rd.

4th to 7th will be decided by the highest points scored after heat 21.

The team having collected the highest number of scored points will be the better placed Team. In case of teams tied on points, see relevant article.

73.1 GENERAL

Competitions for individual Riders:

25 Riders (plus 2 standby Riders) will compete in the Long Track Challenge.

15 Riders (plus 2 Reserve Riders) will compete in each meeting of the Long Track Final Series.

Each FMNR of a FIM Long Track World Championship meeting (**Long Track Challenge and final series**) is guaranteed at least one Rider from its federation included in this meeting.

73.1.1 Race Coordinator

For the Final series and the Challenge, the FIM will appoint a Race Coordinator.

The Race Coordinator is responsible for the conduct and efficient running of the **long track challenge and final series meetings**. He is a voting member of the International Jury, and shall be present at all International Jury meetings.

He is responsible for holding regular meetings with the Riders and their associations in order to obtain a good cooperation and with the aim of continuously improving the standard of the FIM Long Track events.

73.2 PARTICIPANTS

73.2.1 Challenge

For the Long Track Championship Challenge, each FMN will nominate its own Riders, who must hold a FIM World Championship licence issued by that FMN. The number of Riders from each FMN in the Meeting will be allocated by the FIM CCP Bureau to the Challenge.

Any FMN that is unable to nominate a rider, the FIM CCP Bureau will pass the allocation to the next FMN on the reserve allocations list.

The FMNR will nominate two Reserve Riders accepted by the FIM CCP Bureau.

Should a Rider who has qualified from the Challenge, also be in the top seven (7) of the final overall World Long Track Championship Classification of the previous year, his place will be taken by the next available Rider from the FIM Long Track Challenge.

73.2.2 Final Meetings

2021 Qualified Riders:

The top seven (7) placed Riders from 2020 FIM Long Track Final World Championship Classification and the top four (4) Riders as classified from the 2020 Long Track Challenge.

Should a qualified Rider withdraw for the following year, then the first Rider available on the official Long Track Final Nominated Substitutes Riders List shall replace them.

2022 Qualified Riders:

The top seven (7) placed Riders from 2021 FIM Long Track Final World Championship Classification and the top four (4) Riders as classified from the 2021 Long Track Challenge.

Nominated Riders:

Three (3) Riders will be permanently nominated by the FIM CCP Bureau for all Long Track Final Series Meetings of the coming season.

The nomination of these Riders will be decided and announced by the FIM CCP Bureau.

Wild Card Riders:

For each separate Long Track Final Meeting, the organising FMN (FMNR) is permitted to nominate one Wild Card Rider, approved by the FIM CCP Bureau.

Nominated Substitute Riders: Nominated by the FIM CCP Bureau.

If a qualified or permanently Nominated Rider is unable to take part in an FIM Long Track World Championship Final Meeting, he will be replaced by the next Rider from the FIM Long Track World Championship Nominated Substitutes Riders List. If this is not possible, the first track Reserve Rider will replace the absent Rider as a scheduled Rider in that Final Meeting only.

Reserve Riders:

Each FMNR will nominate two Reserve Riders for its Final Meeting approved by the FIM CCP Bureau.

The Reserve Riders must always be ready to take part in a heat immediately

when called upon by the Referee. The Reserve Riders may have their fuel tanks filled up during the races and do not need to empty tanks and refuel the bikes prior to each heat.

No Reserve Rider can take part in Semi-Finals or the Final unless they have qualified from the Qualifying Heats.

When a Reserve Rider takes part in the Qualifying Heats in replacement for one or more scheduled Riders, then the points they score will count in the classification for qualifying to Semi-Finals or Final Heats. They are not allowed to take part in more Qualifying Heats than the programmed Riders.

73.3 RACE JACKETS

73.3.1 Riding numbers

Permanent riding numbers for the 2021 FIM Long Track World Championship Final Series Meetings will be:

No: 1 - 7 according to the result of the previous year's Long Track World Championship Final Classification

No: 8 - 11 according to the result of the previous Long Track Challenge classification first to fourth

No: 12 - 14 the three Permanent Riders nominated by the FIM CCP Bureau

No: 15 FMNR nominated Wild Card Rider

No: 16 -17 Track Reserve Riders nominated by the FMNR

No: 18 - 25 Nominated Substitutes Riders List nominated by the FIM CCP Bureau

73.3.2 Starting positions draw

For the 1st Final of the final series, the Riders starting position draw will be made by ballot at the FIM Headquarters. The Riders starting positions draw for all the other following Finals will be made during the previously staged Final. The FIM Jury President at the final must be present to witness the draw.

In case of a Nominated Substitute Rider(s) or Reserve Rider taking the place of an absent Rider, they will be given the starting position draw for the Rider(s) they are replacing in that meeting.

73.3.3 Riding number jackets

The allocated Long Track Final number will be used to resolve any eventual ties where the lowest riding number is deemed to be the better placed Rider.

Additionally, the 14 Permanent Long Track Riders and the 8 Nominated Substitute Riders may apply to use their own personal racing numbers on their Race Jacket and bikes. They may choose any riding number with a maximum of 3 digits, provided that it has not previously been allocated to another Rider in the last two years, or has been reserved by FIM. Riding numbers 1 to 25 are all reserved for the use of FIM only.

To request a specific personal racing number the Rider must inform the FIM on the annual entry form within a set deadline. Should more than one Rider request the same number, preference will be given to either the Rider who has a clear history of adopting that number, or if this is not the case for either Rider, then the higher ranked Rider will be allocated this number. Other Riders will then need to select an alternative number. FIM will be responsible for resolving any dispute which might arise. Riders who have not requested a specific personal riding number within the deadline will be required to use their allocated Long Track Final number.

The FIM will supply the riding number jackets and it is compulsory for each Rider to wear this riding number jacket at all times during the Practice, Parade, Press Conferences, Racing, Prize-Giving Ceremony, Draws, Interviews and in the pits area.

The covering of any part of the riding number jacket in any way is not permitted.

The riding number jackets and the provided meeting passes (5 off) for the Nominated Substitutes, Wild Card and Reserve Riders must be returned to the race Coordinator, or his nominated deputy, immediately after the last heat, the podium or the Press Conference for the Riders concerned. The Rider is responsible for his riding number jackets and the meeting passes (5) and the cost of any riding number jacket not returned will be charged to the Rider and deducted from the Prize Monies.

FINAL	Riders placed 1st, 2nd and 3rd in the Interim Classification after Heat 15 and Riders placed 1st and 2nd from the Last Chance Heat				

After Heat 15, there will be an Interim Classification from the 1st to the 17th place according to the total race points each Rider has scored during the Qualifying Heats. In the event of a tie in the points scored at the completion of Heat 15, the finishing order will be determined by ART 73.5.1.

The top-scoring three (3) Riders from the Qualifying Heats and Interim Classification will qualify directly for the Final.

Riders placed 4th to 8th will qualify for the Last Chance Heat. (Heat 16)

Rider's gate positions in the Last Chance Heat will be chosen by the Riders in the order of 4th to 8th placings determined by their position after the Interim Classification after Heat 15. (i.e. The Rider in 4th position will have first choice of gate position, followed consecutively by the Riders in 5th, 6th, 7th and 8th positions).

Rider placed 1st and 2nd in the Last Chance Heat will qualify for the Final.

Riders placed 3rd, 4th and 5th in the Last Chance Heat, together with the Riders placed 9th and 10th in the Interim Classification after Heat 15, will take part in Consolation Final (Heat 17).

Rider's gate positions in the Consolation Final (Heat 17) will be chosen by the Riders finishing in the 3rd, 4th and 5th positions in the Last Chance Heat, in that sequence, followed by the Riders placed 9th and 10th from the Interim Classification after Heat 15

Rider's gate positions in the Final (Heat 18) will be chosen by the Riders, in the order determined by the positions as follows, Rider in 1st position in the Interim Classification will have first choice of gate position, followed consecutively by the Riders in 2nd and 3rd positions in the Interim Classification, then followed by the Riders placed 1st and 2nd in the Last Chance Heat.

If a rider cannot take part in a Last Chance Heat, Consolation Final, or the Final for which they have already qualified, they will automatically be considered to be placed in last position for that Heat and will not be replaced by another Rider.

If necessary, the frequency of the Track Grading for all meetings can be modified by the Jury, or at Race Coordinators discretion.

MEETING CLASSIFICATION

The 1st to 5th place in the Final Meeting Classification is decided by the Riders finishing positions in the Final (Heat 18).

6th to 10th place in the Final Meeting Classification is decided by the Riders finishing positions in the Consolation Final (Heat 17).

11th to 17th place in the Final Meeting Classification is decided by the Riders scores when referring to the Interim Classification after Heat 15.

73.5.1 Riders Scores (Challenge and Final Series)

4 points for 1st place

3 points for 2nd place

2 points for 3rd place

1 point for 4th place

0 point for 5th place

In the case of a dead Heat, combined points for the places must be shared equally between the Riders concerned.

Last Chance Heat, Consolation Final and Final (Heat 16, 17 and 18) a chronological criteria should be used for determining the placings of the riders. The positions will be determined by the order, in which the participating riders cross the finish line, then by the order in which each of the other riders was disqualified or withdrew from the heat (first rider disqualified/withdrawn/retired automatically being last and so on). If this fails to determine a result, then their relative positions in the intermediate classification after the qualifying Heats (Heat 15) will apply with the better placed rider in the intermediate classification taking precedence (for example when 2 or more riders finish or fail to finish the heat at the same time).

73.5.2 Ties

Unless a more specific regulation is applicable to the competition the following will apply:

For the Challenge: - after the official programme of heats has been terminated should there be a tie for the first 3 places, or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

For all other cases, ties will be solved as follows:

a) Precedence will be given to the Riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an “0” for last placing being better than M-R-F-T-d-N).

b) If the tie still persists and involves only 2 Riders, precedence will be given to the best placed Rider in the heat where the 2 Riders met.

c) If the tie still persists and involves more than 2 Riders, it shall be checked whether there is a possibility to determine a proper precedence (i.e. 3 Riders tied on points: A, B, C):

Rider A has beaten Rider B Rider A has beaten Rider C Rider B has beaten Rider C.

Then the precedence will be best position for Rider A, then Rider B and then Rider C.

d) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

In case one or more run-offs cannot be held because of force majeure, then precedence will be given to the Riders (tied on points) according to points a), b), c) or d) of this article.

74.2.1 Qualified Riders

No FMN may have more than five programmed Riders (Qualified and/or permanently Nominated Riders) in any Final Series meeting. A nominated non-permanent Wild Card Rider is not included in this total.

74.2.2 Nominated Rider

With the cancellation of the 2021 FIM ICE SPEEDWAY Qualifying Rounds, the FIM CCP Bureau will nominate 15 Riders.

74.2.3 Wild Card Rider

One Wild Card Rider will be nominated to each Final Series meeting. Any FMN may propose suitable Wild Card Riders. These proposals must be made in writing to the FIM not later than 1 month prior to the meeting.

The CCP Bureau will make the final approval and nomination.

74.2.4 Track Reserve Riders

Each FMNR will nominate two track reserve Riders for its Final Meeting approved by the CCP Bureau.

When a Track Reserve Rider takes part in the qualification heats having replaced one or more programmed Riders, then the points they score will count for qualification towards Semi-final heats or a Final heat of that meeting. A Track Reserve is allowed to take part in a maximum of 5 qualification heats.

No track reserve Rider will take part in Semi-Final or Final heats unless he has already qualified from the qualification heats.

The Track Reserve Riders may have their fuel tank filled up during the race meeting and do not need to empty fuel tanks and refuel the bikes prior to each heat.

74.2.5 Nominated Substitute Riders

If any of the permanently Qualified or Nominated Riders is unable to participate in any one or more Final Series meeting (s) and the time allows, he will be replaced by the next Rider from the FIM Ice Speedway World Championship list of Qualified Substitutes, approved and published by the CCP Bureau. If this is not possible, the first Track Reserve Rider will replace the missing Rider as a programmed Rider in the specific Final Series Meeting(s) concerned.

If a permanently Qualified or Nominated Rider retires for the whole or the remaining of the Final Series, he will be permanently replaced by the next Rider from the list of Nominated Substitutes. This is subject to the conditions as per 74.3.1.

74.3 RIDING NUMBERS

For the Final series the permanent riding numbers are:

No: 1-15 will be decided by the CCP according to the previous year's World Championship classification.

No: 16 is the Wild Card Rider

No: 17-18 are the FMNR nominated Track Reserve Riders

74.3.1 Riding number

Each Rider accepted for the FIM Ice Speedway World Championship Final Series will be allocated an Ice Speedway Final number between 1 and 15, which will be valid for the whole Championship of that year. In general, this Ice Speedway Final number will reflect the Final result of the previous year's FIM Ice Speedway World Championship.

In each Ice Speedway World Championship Final meeting, riding number 16 to 18 will be allocated to the FIM Ice Speedway wild card, reserve Riders.

Additionally, the 15 permanent Ice Speedway Riders and Nominated Substitute Riders may apply to use their own personal racing numbers on their Race Jacket and bikes. They may choose any riding number with a maximum of 3 digits provided that it has not previously been allocated to another Rider in the last 2 seasons, or reserved by FIM. Riding numbers 1 to 18 are reserved for the use of FIM only.

To request a specific personal racing number the Rider must send an application to FIM within a set deadline. Should more than one Rider request the same number, preference will be given to either the Rider who has a clear history of adopting that number, or if this is not the case for either Rider, then the higher ranked Rider will be allocated this number. Other Riders will then need to select an alternative number. FIM will be responsible for resolving any dispute which might arise. Riders who have not requested a specific personal riding number within the deadline will be required to use their allocated Ice Speedway Final number.

74.4 FUEL

It is compulsory for every organizer of a FIM Ice Speedway World Championship Final meeting to provide, free of charge (during practice and racing) the methanol for all the Riders.

74.7.1 Ties

Unless a more specific regulation is applicable to the competition the following will apply:

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

For all other cases, ties will be solved as follows:

- a) Precedence will be given to the Riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an “0” for last placing being better than M-R-F-T-d-N).
- b) If the tie still persists and involves only 2 Riders, precedence will be given to the best placed Rider in the heat where the 2 Riders met.
- c) If the tie still persists and involves more than 2 Riders, it shall be checked whether there is a possibility to determine a proper precedence (i.e. 3 Riders tied on points: A, B, C):
Rider A has beaten Rider B Rider A has beaten Rider C Rider B has beaten Rider C.
Then the precedence will be: best position for Rider A, then Rider B and then Rider C.
- d) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

In case one or more run-offs cannot be held because of force majeure, then precedence will be given to the Riders (tied on points) according to points a), b), c) or d) of this article.

After the completion of Heat 20

Ties after completion of heat 20 are solved using Art. 74.8.1 with the following exception for solution d):

In the case of a final Series Meeting - the lowest riding number jacket will be deemed the better placed Rider.

In the case of a qualifying meeting (s) - A ballot.

The Intermediate Ice Speedway Classification

In case of Riders tied on World Championship points in the Intermediate Classification, the Rider with the lowest allocated Ice Speedway Final number will be deemed the better placed Rider.

The Final Overall Ice Speedway World Championship Classification

In case of Riders involved in a tie on the Final Overall Classification, at the end of the Ice Series, the following will apply:

1. Run-off for 1st, 2nd and 3rd place.
2. For all other places, the result from the final meeting will take preference.

INTERRUPTION OF A MEETING

- a) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant (Rider or team) but can continue the same day, then, only the remaining scheduled heats will be staged after the interruption. The final classification will be established taking into consideration the heats staged before and after the interruption.
- b) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant but cannot continue the same day, then, the results of the staged heats will not be taken into consideration. The meeting will be re-staged from the beginning on the date(s) stipulated in the Supplementary Regulations.
- c) When a meeting is interrupted and cannot continue on the same day, and if 50% or more of the scheduled heats per participant are accomplished, then, the meeting must be considered as valid. The position in the final classification will be established by adding the points scored by each participant in the same number of accomplished heats which means that when a participant had the opportunity to accomplish one more heat than the other participants, then, that heat must not be taken into consideration (example: an individual meeting is interrupted after heat 14 and cannot continue the same day. The final classification will then be established taking into consideration only heats 1 to 12).

When run as “2-day formula”

- a) When the meeting of the 1st day is interrupted before 50% of the scheduled heats per participant have been accomplished and the remaining heats cannot be staged the same day, then the results are not taken into consideration. Only, the heats of the 2nd day (which must be more than 50% of the scheduled heats per participant will count for the final classification.
- b) When a valid result of the 1st day is accomplished but the 2nd day of racing is interrupted before 50% of the scheduled heats per participant for that day have been accomplished, then the International Jury, taking into consideration the track and weather conditions, will decide if the Organisers can re-stage the 2nd day or consider, for the final classification only the results of the 1st day.

If an FIM Track Racing Championship meeting comprising a qualifying round, semifinal, Race Off or Challenge cannot be staged or restaged or reallocated to an alternative venue or FMN for exceptional circumstances (i.e. Weather) that are acceptable to the CCP Bureau, the CCP Bureau at its sole discretion will nominate a list of appropriate Riders to be seeded into the next qualification round, Challenge or Final Series. The Riders will be selected from original scheduled line up of the cancelled meeting.

The Riders for the official “Nominated Substitute Riders list” will be nominated by the CCP Bureau.

7C.4.1 Ties

Unless a more specific regulation is applicable to the competition the following will apply:

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

For all other cases, ties will be solved as follows:

a. Precedence will be given to the Riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an “0” for last placing being better than M-R-F-T-d-N).

b. If the tie still persists and involves only 2 Riders, precedence will be given to the best placed Rider in the heat where the 2 Riders met.

c. If the tie still persists and involves more than 2 Riders, it shall be checked whether there is a possibility to determine a proper precedence (i.e. 3 Riders tied on points: A, B, C):

Rider A has beaten Rider B Rider A has beaten Rider C Rider B has beaten Rider C.

Then the precedence will be: best position for Rider A, then Rider B and then Rider C.

d. If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

In case one or more run-offs cannot be held because of force majeure, then precedence will be given to the Riders (tied on points) according to points a), b), c) or d) of this article.

After the completion of Heat 20

When establishing the order between the Riders in the list of Intermediate Classification at the conclusion of Heat 20 any ties will be solved as follows:

a) Precedence will be given to the Riders (tied on race points) having the most number of 1st, 2nd, 3rd or 4th placings (a “0” for last placing is better than being disqualified for whatever reason).

- b) If the tie still persists and involves only 2 Riders, precedence will be given to the better placed Rider in the heat or heats where the 2 Riders met.
- c) If the tie still persists and involves more than 2 Riders, it shall be checked whether there is a possibility to determine a proper precedence (e.g. 3 Riders tied on points: A, B, C:
 - Rider A has beaten Rider B
 - Rider A has beaten Rider C
 - Rider B has beaten Rider C

Then the precedence will be: best position for Rider A, then Rider B and then Rider C.

- d) If solutions a), b) and c) cannot resolve the tie, then the order will be determined by ballot.

In case of a tie between one or more Riders in the final overall classification, a run-off will decide the 1st, 2nd and 3rd place. For all other placings, the better-placed Rider in the last final meeting will be the better-placed Rider.

Interruption of a meeting

- a) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant (Rider or team) but can continue the same day, then, only the remaining scheduled heats will be staged after the interruption. The final classification will be established taking into consideration the heats staged before and after the interruption.
- b) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant but cannot continue the same day, then, the results of the staged heats will not be taken into consideration. The meeting will be re-staged from the beginning on the date(s) stipulated in the Supplementary Regulations.
- c) When a meeting is interrupted and cannot continue on the same day, and if 50% or more of the scheduled heats per participant are accomplished, then, the meeting must be considered as valid. The position in the final classification will be established by adding the points scored by each participant (Rider or Team) in the same number of accomplished heats which means that when a

participant (Rider or Team) had the opportunity to accomplish one more heat than the other participants, then, that heat must not be taken into consideration (example: an individual meeting is interrupted after heat 14 and cannot continue the same day. The final classification will then be established taking into consideration only heats 1 to 12). This rule applies entirely to each single day of a 2 days Ice Racing meeting.

If an FIM Track Racing Championship meeting comprising a qualifying round, semifinal, Race Off or Challenge cannot be staged or restaged or reallocated to an alternative venue or FMN for exceptional circumstances (i.e. Weather) that are acceptable to the CCP Bureau, the CCP Bureau at its sole discretion will nominate a list of appropriate Riders to be seeded into the next qualification round, Challenge or Final Series. The Riders will be selected from original scheduled line up of the cancelled meeting.

The Riders for the official “Nominated Substitute Riders list” will be nominated by the CCP Bureau.
