 - (1) The team for which two (2) riders participated and had their times recorded in the Top 10 Trial will be positioned on the starting grid in the order of the faster time of the two riders. (This team will be given higher priority over the team in (2) even if both of their riders have "no time" recorded).
 - (2) The team for which one (1) rider participated and had his time recorded in the Top10 Trial will be positioned on the starting grid in the order of the time. (This team will be given higher priority over the team in (3) even if they have no time recorded.)
 - (3) The team, which did not participate in the Top 10 Trial at all, will be positioned on the starting grid in the order of the time recorded in the qualifying practice.
- 30-6 In case of a tie among different teams, the starting grid will be determined in the following order.

(3) The session will be resumed with the rider, who was on his time-attack lap, when the red flag was given, going out first to start the warm-up lap. A lap time recorded when the red flag is given will not count. If the red flag was caused by the rider on time-attack lap (due to a fall, etc.), the next rider will start the resumed session (the rider who caused the red flag will have no time recorded).
(4) The lap time of a rider who was on cool-down lap when the red flag was given, will count as official lap time.
- 29-16 In the event the track condition changes significantly during the Top 10 Trial, the starting grid will be determined at the discretion of the International Jury as follows:
A timed session will be conducted for the 10 teams qualified to take part in the Top 10 Trial, to be anticipated by the riders from the 10 teams altogether.
