6) Event Format

6.1) Friday 17.06. / Saturday 18.06.: *Blakläder Iron Road Prolog (Qualification)*

Format/Track:

The course leads over an approx. 15 km long gravel track without off-road obstacles to the summit finish 700 metres higher up. The classification is done by timing with light barriers. Each participant will take part in one race lap on Friday and one on Saturday, whereby the better time of the two runs will count both as a race result and as qualification for the Red Bull Erzbergrodeo on Sunday.

Start:

The start will be by start number in ascending order. The organizer is responsible for the allocation of the start numbers.

Pre-start: Pos. 1-150 - **7:45AM** **Start rider 1 -** **8:00AM**

Pre-start 20 minutes before personal start time.

As soon as the start light turns green, the competitor has a maximum of 5 seconds to start.

INFO: More detailed information about the starting times can be found in the attached event info.

Finish:

Each participant must STOP at the prologue finish to be scanned by the checkpoint crew using a hand-held scanner.

When scanning, the scanner must touch the light mask of the motorbike, duration 1-2s.

The prologue run can only be scored if the start number on the light mask of the motorbike has been scanned successfully! The checkpoint crew will give the signal to the rider to continue after the scan has been completed.

Outside Assistance:

No outside help is allowed, neither from the public nor from team members. Only the riders can help each other. Official marshals may be present at certain points, but only official marshals may assist the riders in addition to the other competitors. Only official track marshals are allowed to assist riders in dangerous situations or for safety reasons. The help has to take place in such a way that the rider does not gain a competitive advantage out of it (e.g. riders will be pulled aside or downwards on steep sections to re-try).

Result:

Best single run time from race 1 and race 2 counts for the starting grid of the Red Bull Erzbergrodeo on Sunday

Premature Stopping:

A premature race stop is indicated by flag signals and the **SIGNAL TONE** of the thunderstorm siren

Prize Giving Ceremony:

Prize giving ceremony of the Blakläder Iron Road Prologue will take place on **18.06. 9:00PM at Red Bull Erzbergrodeo Arena.**

6.2) Sunday 19.06.: Red Bull Erzbergrodeo (World Championship Race)

Format/Track:

The course leads for about 35 km through terrain of varying difficulty, over the summit back to the Red Bull Erzbergrodeo Arena to the finish. The classification is based on the order of arrival at the finish, or on the number of checkpoints reached in the direction of travel and in uninterrupted order. Timekeeping will be done by transponder timing.

Pre-Start:

Meeting point with motorbike at the **assembly point: 12:00 AM**

At the assembly point the participants will be sorted according to starting rows and then directed to the Red Bull Erzbergrodeo starting area for the final starting line-up.

Start:

Mass start per starting row of 50 riders, engine OFF, start signal by flag signal.

Start time row 1 (pos. 1-50): 2:30 PM then 2min interval between the start rows

Checkpoints:

The race track will have at least 20 checkpoints.

Checkpoints will be announced by a sign

Each participant must STOP at the checkpoint to be scanned by the checkpoint crew using a hand-held scanner. When scanning, the scanner must touch the light mask of the motorbike, duration 1-2s. Only by successfully scanning the start number on the light mask of the motorbike, the passed checkpoint can be confirmed and thus also scored!

The checkpoint crew will give the rider the signal to continue after the scan has been completed.

Outside Assistance:

No outside help is allowed, neither from the public nor from team members. Only the riders can help each other. Official marshals may be present at certain points, but only official marshals may assist the riders in addition to the other competitors. Only official track marshals are allowed to assist riders in dangerous situations or for safety reasons. The help has to take place in such a way that the rider does not gain a competitive advantage out of it (e.g. riders will be pulled aside or downwards on steep sections to re-try).

Classification:

The classification will be according to the order of arrival at the finish, or according to the number of checkpoints reached in the direction of travel and in uninterrupted order. Timekeeping is done by transponder timing.

- The course of the racetrack is marked by artificially built EMBANKMENTS (gravel walls) and TRACK MARKERS (green arrows).
- Additionally, GATES are placed on the left and right side of the racetrack. These gates have to be passed by each participant (like in Alpine Skiing Giant Slalom events).

What to do at the BLAKLÄDER IRON ROAD PROLOGUE FINISH

- Each competitor has to STOP at the Prologue finish to get scanned by the checkpoint-crew.
- For this purpose the scanner has to touch the motorcycle's front numberplate. Each Prologue heat can only be verified and scored if the starting number decal at the headlight / front numberplate is scanned properly.
- Timing is done by light barriers - scanning confirms the arrival at the finish line, not the actual run time of the competitor.
- Each competitor has to wait at the finish area until he is guided back to the paddock in groups by a TOURGUIDE.
- **IMPORTANT:** Leaving the finish area independently is strictly forbidden! Riding a motorcycle at the Erzberg compound without company of a Tourguide results in an immediate disqualification from all further race events.
