11. Rules (proposals, changes, additions, concepts)

11.1 FIM Standards for Circuits

After a discussion among the FIM Safety Officers, Antonio Lima proposed *“that it is defined in the FIM rules that a new Circuit without experience in motorcycle competitions, before receiving a race for a World Championship for the first time, has to organize an Motorcycle event so that we can test the local structure, see how they work, see how operations are carried out, motorcycle recovery, Medical Services, Race Control, etc.”*

We propose to you the following change at the end of Art 3.2:

ART. 3.2. PROCEDURE FOR NEW HOMOLOGATION

(...)

For permanent circuits, it is recommended that the final inspection should be made not later than 90 days before the first FIM event to be held. At this point, all work should be completed. For new circuits, in order to obtain a FIM homologation, **it is recommended to organise a national race event prior the event of the FIM and** must have previously or simultaneously received a national homologation.

For non-permanent circuits, a special homologation procedure will be followed.

The above procedures are also mandatory for circuits that have undergone substantial modifications. Any substantial modifications carried out but not submitted to the FIM are liable to suspend the homologation.

11.1 FIM Endurance World Championship, Cup and Trophy

2.11 PROTECTIVE CLOTHING AND HELMETS

To add the following paragraph at the article 2.11.5 in order to make compulsory the use of airbags as from 2026.

(...)

As from 2026: the use of the airbags will compulsory (either category 1 or 2) in all classes (Formula EWC, SUPERSTOCK, PRODUCTION and EXPERIMENTAL).

The eligible airbags are in the following link:
