6. FIM Sound Regulations
7. FIM Disciplinary Code

of the current year, as supplemented and amended from time to time (hereinafter collectively referred to as the "FIM Regulations").

The FIM Regulations may be translated into other languages, but in case of any dispute regarding interpretation the English text will prevail.

It is the responsibility of each rider and/or team to ensure that all persons involved with their entries always observe the FIM Regulations. The responsibility of the rider, or any other person having charge of an entered motorcycle at any time during an event is joint and severally with that of the team.

All persons concerned in any way with an entered motorcycle or present in any capacity whatsoever in the Paddock and the Pit Lane or at the circuit, must always carry an appropriate pass during the event.

Actions judged by the officials responsible to be contrary to the FIM Regulations - or judged to be unsportsmanlike or against the best interests of the sport or the event in question - are subject to disciplinary actions as provided by the FIM Disciplinary Code.

Any references to the male gender in this document are made solely for the purpose of simplicity and refer also to the female gender except when the context requires otherwise.

**1.4 FIM World Championships Criteria**

---

**1.4 FIM World Championships Criteria**

**1.4.S1GP FIM S1GP SuperMoto World Championship**

---

1. All organised events counting towards the corresponding FIM World Championship will be taken into consideration. However, the FIM Board of Directors or, if necessary, the FIM Executive Board is entitled, upon proposal from the FIM Motocross Commission and in exceptional circumstances, to decide deviating from this principle.
2. For the first event of the FIM World Championship: the provisional point standings equals the overall point standings of the event in question.
3. As of the second event, the riders will be ranked according to the total number of points they have scored.
4. In case of ties in the provisional standings, the number of better placings will be considered.
5. If a tie still exists, the points scored in the last Race will then determine the order of placing in the provisional standings. If necessary, the points scored in the last but one Race will determine the order of placing in the provisional standings, and so on.
6. The winner of the FIM World Championship is the rider who has obtained the most points from all the Races and “SuperPoles” of the FIM World Championship, irrespective of the number of Races he has completed.
7. In case of ties for the final standings of the FIM World Championship, the same conditions as for the provisional standings will apply to determine the winner of the Championship and the ranking of the riders tied in points.
8. For the FIM Manufacturers’ World Championship, only the highest placed motorcycle of each Manufacturer will gain points, according to their position in each Race and “SuperPoles” of the Championship.
9. In case of ties for the FIM Manufacturers’ World Championship, the same conditions as for the riders will apply to determine the winner of the Championship and the ranking of the Manufacturers tied in points.
10. In the case where a rider participates on motorcycles from different Manufacturers, it is the make of the motorcycle with which he has obtained the most points that will appear next to his name in the final standings, without, however, modifying the calculation for the FIM Manufacturers’ World Championship.
11. The final FIM World Championship standings cannot be considered definitive until the time limits for protests and appeals have elapsed, all protests and appeals have been settled, and a final decision has been taken by the competent bodies.
12. All FIM World Champions are obliged to attend the official FIM Prize-Giving Ceremony.
